RE: Money!

In an effort to provide you with money for professional development opportunities, we want you to be aware of funding opportunities through our Smaller Learning Communities grant.

**The attached information explains the process to follow
for accessing these funds.**

When you find an opportunity for training and it fits the goals of Chico High's Action Plan and the goals of the SLC program, submit an application to the Professional Development Coordinator.

If you have any questions, call me (ext. 311), email me (thampton) or stop by B-11.

Thanks!
