The OSC is an alternative program offered in the Chico Unified School District. It contains characteristics which differ from other District programs. One characteristic is that enrollment is a family commitment and involves the parents as well as the student. Much of the success of the OSC depends on this commitment and if you become an OSC parent, there are definite expectations in terms of your involvement, support, and responsibilities.

1. Involvement and Support: As an OSC family, we will contribute an average of two hours per week to the program. (A Parent Talent/Involvement Survey is sent home which delineates specific ways to fulfil this commitment.)
2. Involvement: We are aware that there are two general meetings for the OSC parents each year, one in fall and one in spring, which parents are expected to attend. At these meetings, parents vote on issues affecting the program. (Monthly Parent Advisory Board meetings are also times when all parents can participate in the decision making process.)
3. Transportation: We understand that it is the parents' responsibility to transport students to and from school promptly at required school hours.
4. Program Support: We agree to support fundraising projects for the OSC which provide for extra classroom materials and field trips.
5. School-wide support: In addition to supporting the OSC program, we will also be supportive of all-school programs.
