5. STAR Test results: We perused the scores for Language Arts and Math. Over the years, the staff has learned how to recognize when children do not understand the concept and what to do to help them become successful.
6. Budget. Ugly. Committee looked at the budget and discussed ways that LCC could possibly cutback this year. The question was asked if LCC was committed to match funds for the Playroom during the three-year grant? Scott Lindstrom needs to be contacted for clarification.
Note: There were no subs or expenses for RTI Training on September 19 and 20.
Note: Training the yard duties in Second Step/Healthy Play strategies are paid for through money in the Second Step grant.
7. Discussion followed about expenditures from the NCLB and the SBCP budgets for the 08/09 school year. There will not be money in the budget to fund a FTE T-1 Resource teacher.
8. LCC was selected to apply for the Distinguished Schools Award because of its excellent test scores from 2007. A committee has formed to help collect data and write the application.
