Field Trip Request to Yearbook Camp in Moraga CA, St. Mary’s College

Action:            Consent:       Information:       

Board Date: 06/20/07

Prepared by: Cindy Hopkins

Background Information
PV Yearbook – Grades 9-12
Attending yearbook camp has been an integral part of the journalism program at PV for the last nine years. Yearbook has not missed a camp over the past nine years. Attending yearbook camp is important for many reasons. 1) It is where my staff is trained for creating the next year’s book. 2) The best teachers in journalism are at this camp. 3) This is where we create the “blue print” for the next year’s book; we call it a concept package. 4) It is where we bond as a staff for the first time. 5) When you play sports, the way to improve it to play teams that are better than you, this is where we meet those “teams” and begin to amp up our program. 6) This is where we learn the latest in trends in journalism both with regard to writing and design. 7) It has become tradition.

Educational Implications
Students will attend classes designed to teach them at their level. Some will be in yearbook 101 while others attend advanced design courses. Additionally we meet in “home groups” where we work as a staff on our concept package, while learning from and networking with other schools. Finally we compete in a camp wide concept package competition.

Fiscal Implications
This field trip will be funded by the yearbook class. Our fundraising is done through ad sales and yearbook sales. Therefore, all students will be provided the same opportunities to be a part of this trip.

Additional Information
The adviser, Ms. Hopkins will supervise the trip. We will be departing the morning of July 30th and returning the evening of August 2nd. Both the adviser and parents will transport students in private vehicles. Approximately 2 students will be attending. Therefore, the supervision ratio is 2 to 1. At the camp, there are directors, counselors and other advisers who all will take part in supervising all camp attendees.

Recommendation

PROPOSED AGENDA ITEM: Consolidated Application

Board Date: June 20, 2007

Background Information

The Consolidated Application for Funding Categorical Aid Programs (Con App) for 2007-08 primarily contains information related to entitlements, allocations, and numbers of participants in specified programs. The Con App includes both state and federal funding sources. Program entitlements are determined by formulas contained in the laws that created the programs. Out of each state and federal program entitlement, districts allocate funds for indirect costs of administration, for programs operated by the district office, and for programs operated at schools.

Educational Implications

The entitlements and allocations funded through the Con App are used to supplement core curricular activities that support student learning in such areas as reading, math, school safety and violence prevention, and support for English Learners.

Fiscal Implications

No impact on the general fund. All expenditures of categorical program funds must be described and budgeted in each school’s Single Plan for Student Achievement. These plans must be presented to and be approved by the School Site Council.

☐ Consent

☐ Information Only

☐ Discussion/Action

Board Date: June 20, 2007

Background Information

All schools that receive Title I funding and local educational agencies (LEAs) that do not make Adequate Yearly Progress (AYP) are identified for Program Improvement (PI). PI schools and LEAs must implement required program components and interventions. The District must notify students attending PI schools in years 3-5 of Supplemental Services opportunities. Supplemental Educational Services are tutoring or other supplemental enrichment activities beyond the regular school day. Services are to be high quality, research-based, and designed to improve the students’ academic achievement. Students are eligible for services if they are in Title I schools in PI status and 1) not meeting State Standards in reading and math, and 2) from low income families. All supplemental services must be rendered by a State Board of Education (SBE) approved provider.

Education Implications

The state-approved Supplemental Service Providers will render services to qualified students based on their academic needs.

Fiscal Implications

Districts that receive Title I funding and have schools in PI status are required to set aside a portion of their Title I allocation. This set-aside must be used to pay the SBE approved Supplemental Service Providers for their contracted services.

TITLE: Bid Approval – Entry Access Walkway Renovations at Bidwell Junior High School

Agenda Item
June 20, 2007
Page 1 of 1

Prepared by: Michael Weissenborn, Facilities Planner/Construction Manager

Background Information
As part of the Bidwell Modernization project undertaken in 2004, modifications were made to all the classroom doorways to meet ADA requirements. The modifications included creating ADA compliant ramps to the threshold of each door by utilizing a thin set overlay. The specified overlay product failed to properly adhere to existing concrete. The ramps are cracking and splitting from the underlying concrete walks. These ramps must be replaced. This project involves cutting out the ramp areas and placing new concrete ramps in their place.

Educational Implications
The District’s Strategic Plan states: “A safe, nurturing and inspiring environment is essential for individuals to thrive.”

Fiscal Implications
The failure of these ramps resulted in a series of claims involving the contractor, architect and the District. It was determined that the contractor was not responsible for any repairs or modifications due to the fact that he had followed specifications in the placement of the ramps. The architect stated that although this was a product that was successfully used in similar applications, they were willing to cover the replacement costs. $31,000 of the expense is being funded by Nichols, Melburg & Rossetto. The District will be paying the balance of the cost out of modernization dollars.

Additional Information

Recommendation
It is requested that the Board of Education grant authorization to the Superintendent or his designee to award the project to the lowest responsive bidder, Associated Building Contractors.

Action: Consent: Information: X

Prepared by: Kelly Staley, Assistant Superintendent for Educational Services

Background Information
In order to govern effectively, Districts are required to have accurate and up-to-date Board Policies. By law, Districts are mandated to adopt many policies to ensure legal compliance. Working in conjunction with California School Boards Association (CSBA) Policy Services, CUSD continues to update and revise Board Policies to ensure CUSD is legally compliant.

Educational Implications
Up-to-date policies provide clarity to the expectations for students, parents, and staff.

Fiscal Implications
CUSD is required to have up-to-date and legally compliant policies. Failure to have such policies in place jeopardizes funding opportunities, especially in regards to Categorical dollars.

Recommendation

SCHOOL-BASED PROGRAM COORDINATION

In order to best serve students with special needs and students participating in designated educational programs, the Governing Board encourages school-based program coordination as a means for achieving flexibility in the use of the categorical funds received by each school. The Board believes that resources acquired to assist students in one program often can benefit other students without in any way depriving the originally targeted group.

A school site council shall be established at each school to consider whether or not it wishes the school to participate in school-based program coordination. All interested persons shall have an opportunity to meet in public to establish the site council. (Education Code 52852.5)

(cf. 0420 - School Plans/Site Councils)
(cf. 1220 - Citizen Advisory Committees)

The school site council of any participating school shall develop, for approval by the Board, a school plan that addresses the components specified in Education Code 52853. Mission

The district provides electronic information resources to students and staff. It is our mission to improve learning and teaching through interpersonal communication, student access to information, research, teacher training, collaboration and dissemination of successful educational practices, methods and materials. The Board of Education supports the right of students, employees, and community members to have reasonable access to various information formats and believes it is incumbent upon users to utilize this privilege in an appropriate and reasonable manner.

Safety Procedures and Guidelines

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic information. Internet safety measures shall be implemented that address the following, within technical and budgetary constraints (or limitations):

- Controlling access by students to inappropriate matter on the Internet and World Wide Web;
- Safety and security of students when they are using electronic mail, chat rooms, and other forms of electronic communication;
- Preventing unauthorized access, including “hacking” and other unlawful activities by students online;
- Unauthorized disclosure, use and dissemination of personal information regarding students; and
- Restricting students’ access to materials harmful to them.

District procedures shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the internet, e-mail, and other district technology resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Quality Education Investment Schools

The Governing Board believes that schools demonstrating the lowest performance on state indicators of student achievement should be assisted with additional resources and support focused on instructional improvement and student services.

Whenever the Superintendent of Public Instruction identifies a district school as ranking in decile 1 or 2 on the Academic Performance Index (API) and notifies the district that the school is eligible to participate in the state's Quality Education Investment program. The Superintendent or designee shall review the program requirements and recommend to the Board if it would be in the district's best interest to apply. Based on this determination, the Board may submit an application, including an application for an alternative program, on behalf of the school in order to obtain additional state funding for school improvement.

The Superintendent or designee shall ensure that each participating school uses program funds for the purposes expressed in law and administrative regulation. Activities carried out under this program shall be aligned with other school improvement efforts.

SAFE SCHOOLS

The Chico Unified School District Board of Education believes that every student has a legal right to attend a safe and secure school and its related activities. Students must demonstrate responsibility in exercising their rights, and they are expected to conduct themselves in a manner that reflects the values of the school district and the community.

The school staff has the authority and support to maintain discipline in order for the schools to function in accordance with their intended purpose. The Board will not tolerate activities which threaten the safety and well-being of students, staff or property. School personnel will hold students to strict account for their conduct at school and at all school related activities. Additionally, school personnel have the authority and, when it is practicable, will hold students accountable for their conduct while the students are going to or coming from school and/or any school related activity.

The Board rejects any substantiated gang activity which advocates hazing, drug use, violence, vandalism, disruptive behavior or other illegal activities on school grounds or at school functions. Students wearing, carrying, or displaying gang paraphernalia, making gestures which symbolize gang membership, or intimidating another student may be subject to appropriate disciplinary action.

The Superintendent shall be responsible for developing, implementing, monitoring and evaluating procedures to implement this policy.

TITLE: RESOLUTION 988-07: EXTENDED DAY KINDERGARTEN AT COHASSET

Action: __X__
Consent: _____
Information: _____

Board: 06/20/07

Prepared by: Eddi Deromedi, Principal

Background Information
By necessity, families residing in Cohasset frequently elect to Form 10 their kindergarten age children to schools in the Chico urban area closer to work locations and childcare options. Childcare is very limited in Cohasset and transportation after kindergarten dismissal is often a concern. In addition, there are no preschool programs established in the community. Therefore, many of the children enter school without preschool experiences geared toward developing the social and academic skills that provide the foundation for attaining kindergarten grade level standards. In an extended-day kindergarten, students benefit from the additional time to assimilate and practice the many required skills as they are introduced, supporting a strong transition into the elementary education program of first through sixth grade.

Educational Implications
An After School Program (ASES) began in February of this year that would complement an extended-day kindergarten and allow for seamless attendance in the program after the dismissal of class. The school currently has an enriched kindergarten and first grade combination class which benefits from the dedication and expertise of an extremely skilled primary teacher who possesses over twenty years of experience. She is very cognizant of the fact that children enter school at varying developmental and experiential levels which she addresses through effective instructional methodology that combines core curricula with active learning strategies. She is uniquely capable of truly engaging and maintaining the attention span of very young learners as appropriate in an enriched early primary program. The teacher has agreed willingly to teach in an extended-day format and is positively anticipating the possibilities of additional time for quiet reflection, social interaction and in-depth exploration; elements that are not always possible within the established kindergarten instructional minutes.

Fiscal Implications
None

Additional Information
The new requirements for early primary programs, including extended-day kindergarten classes, allow for their establishment through the local School Board resolution process, as opposed to the past Department of Education wavier process.

Recommendation
I recommend approval of an extended-day kindergarten at Cohasset School.

RESOLUTION NO. 988-07
EXTENDED DAY KINDERGARTEN
AT
COHASSET ELEMENTARY SCHOOL

WHEREAS, California Education Code Section 37202 allows for an extended-day kindergarten class operated as part of an early primary program (EC 8970-8974);

WHEREAS, within an early primary program, kindergarteners may exceed the four-hour maximum instructional day otherwise applicable to them (EC 46111);

WHEREAS, on a case-by-case basis, the Board shall determine the viability of extending the instructional day of the kindergarten class operated as part of an early primary program that provides developmentally appropriate activities in a safe, well-supervised, cognitively rich environment (EC 372020);

WHEREAS, this District recognizes that high-quality early primary programs help to develop knowledge, skills, and attributes necessary to be successful in school and provide for a smooth transition into the elementary education program of first through sixth grade, this resolution is adopted under the authority of California Education Code Section 8973;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Education of the Chico Unified School District hereby approves the establishment of an early primary program at Cohasset Elementary School commencing with the 2007-2008 school year.

EXTENDED-DAY KINDERGARTEN WITHIN AN EARLY PRIMARY PROGRAM:
LENGTH OF SCHOOL DAY

This letter is to inform you of a specific change to California Education Code (EC) Section 37202 pertaining to extended-day kindergarten classes that are operated as part of an early primary program (pursuant to EC 8970-8974). An early primary program consists of same-age students or any combination of state preschool or child development program, kindergarten, first, second, or third grade students who are provided integrated, experiential, and developmentally appropriate instruction. Thus, within an early primary program, kindergarteners may exceed the four-hour maximum instructional day otherwise applicable to them (pursuant to EC 46111).

Since the inception of the early primary program provisions, any school district offering an extended-day kindergarten class in some but not all of its schools has had to seek a waiver of EC Section 37202. This section requires that all students at a given grade level in a district receive "an equal length" of instructional time.

Assembly Bill 2407 (Chapter 946, Statutes of 2004) revised EC Section 37202 to incorporate a specific, ongoing exception from the equal-length-of-time requirement for extended-day kindergarten classes operated as part of an early primary program. Thus, waivers of EC Section 37202 for this purpose are no longer needed.

By way of background, please note that the following criteria apply to an early primary program:

- There must be a local board-adopted policy establishing the early primary program.
- The school day may not last longer than that permitted for the oldest participating students at the school.
- There must be ample opportunities for active and quiet activities.

Moreover, if a school district wishes to implement an extended-day kindergarten class as part of an early primary program, the following steps should be taken:

- School district personnel should review EC Sections 8970-74, 46111, 46115, 46118, 46201, and 45024.
- Affected bargaining units should be consulted and agree to modifying the length of the school day for the participating students at the participating schools.
- The local board should pass a resolution pursuant to EC Section 8973 to establish an early primary program.

To reiterate, a waiver of EC Section 37202 is no longer needed to operate an extended-day kindergarten as part of an early primary program.

If you have any questions or need any additional information regarding the provisions of AB 2407, the establishment of an early primary program, or the operation of an extended-day kindergarten, please contact the Elementary Education Office, at 916-319-0876. If you have any questions regarding waivers, please contact the Waiver Office, at 916-319-0824.

Sincerely,

JACK O'CONNELL

In light of the new requirements for establishment of early primary programs, I would like to request consideration of extended-day kindergarten classes at Cohasset School and perhaps at Forest Ranch. Cohasset will have an After School Program beginning February of this year that would complement an extended-day kindergarten program. Forest Ranch did not qualify for an after school program for this funding cycle, so it is not as conducive to a longer kindergarten day. Both schools currently operate enriched kindergarten and first grade combination programs, with kindergarteners leaving school at lunchtime. As rural schools, both face similar issues in providing early educational services to their communities.

Neither community has available preschool programs. Childcare opportunities, in general, are very limited. In addition, transportation is often a concern. Therefore, many of the students enter school without preschool experiences geared toward the developing the social and academic skills that provide a foundation for meeting kindergarten grade level standards. In an extended-day kindergarten the students would benefit from the additional time to assimilate the many required skills as they are introduced and practice them in greater depth and frequency.

Both schools benefit from the dedication and expertise of two extremely capable primary teachers, each having over twenty years of experience. They are cognizant of the fact that every child who enters school is unique, with varying levels of skill development and life experiences. They effectively utilize instructional methodology that combines the core curricula with active learning strategies. Their classrooms incorporate various groupings and individual choice as appropriate to the activity. Both teachers have the skills necessary to truly engage and maintain the attention span of very young learners.

In discussing the possibilities inherent in an extended-day program, the teachers have expressed anticipation of additional time for quiet reflection, social interaction and in-depth exploration, elements that are not always possible within the timeframe of the established kindergarten instructional minutes. They have both willingly agreed to teach in an extended-day format. In my conversation with George Young, he informed me that it would be a simple procedure as there is precedent for this change in working conditions as long as the specific teachers are in agreement.

For Cohasset School, being enrolled in an extended-day program, would allow next year’s kindergarten students the ability to participate in the after school program as well. Hopefully, the ASES funding will be available to Forest Ranch School in the future. Forest Ranch kindergartners would then be in a position to take advantage of the after school services. Parents at both schools have expressed interest in enrolling their children in an after school program.

Although there are many aspects that speak positively to the implementation of an extended-day program in kindergarten at Cohasset and Forest Ranch, some questions are also raised that would need to be considered. First, are all parents required to enroll their children in the full-day program? Is it possible to offer the program as an alternative choice, thus allowing parents to commit to half- or full-day options depending on the needs of the learning needs and styles of their children? If the program is established what would be the necessary steps to alter or discontinue it if that becomes necessary?

Please, let me know what is needed to further this idea and keep me apprised of any developments regarding the proposal. Thank you.

PROPOSED AGENDA ITEM: **Waivers for schedule changes to allow for teacher collaboration**

Prepared by: Bob Feaster, Assistant Superintendent, Human Resources

X Information Only  

Discussion/Action  Board Date: June 20, 2007

**Background Information:**

The Collective Bargaining Agreement between the District and CUTA allows for a one year waiver of contract provisions if 85% of the unit members at the affected school site support the change. Three of our schools (Pleasant Valley High School, Chico High School and Marsh Junior High School) have passed waivers to modify the instructional minutes such that school would start later every Wednesday for students. This schedule would provide for approximately 50 minutes on Wednesday's for teacher collaboration time.

**Educational Implications:**

The educational implications are significant. This time will allow teachers to address such important issues as what it is we want students need to learn, how they will assess what students have learned and what we will do for students who need interventions and for those who would benefit from deeper understanding.

**Fiscal Implications:**

There are no fiscal implications. This waiver allows teachers to collaborate without cost to the District.

**Recommendation:**

No action needed.

(Sample Scenario: All power at CHS goes out for an entire day. To regain those lost minutes, we would develop a 3-day, 336-minute finals schedule that would gain us 372 additional minutes—more than enough to cover the lost minutes due to the power outage. While finals would have to be full day to allow for the necessary minutes, we could still have a Finals Schedule that allowed for longer finals.)
