### **Career Technical Education**

The Governing Board desires to provide a comprehensive career technical education (CTE) program in the secondary grades which integrates core academic instruction with technical and occupational instruction in order to increase student achievement, graduation rates, and readiness for postsecondary education and employment. The district's CTE program shall be designed to help students develop the academic, career, and technical skills needed to succeed in a knowledge- and skills-based economy. The program shall include a rigorous academic component and provide students with practical experience and a comprehensive understanding of an industry.

*(cf. 6143 - Courses of Study)*

*(cf. 6200 - Adult Education)*

The district's CTE program shall focus on preparing students to enter current or emerging high-skill, high-wage, and/or high-demand occupations. CTE opportunities may be offered through linked learning programs, partnership academies, apprenticeship programs or orientation to apprenticeships, regional occupational centers or programs (ROC/P's), charter schools, small learning communities, magnet programs, or other programs that expose students to career options while preparing them for future careers in a given industry or interest area.

*(cf. 0420.4 - Charter School Authorization)*

*(cf. 6178.2 - Regional Occupational Center/Program)*

The Superintendent or designee may explore available funding sources that may be used to support CTE programs.

*(cf. 3230 - Federal Grant Funds)*

The Board shall adopt district standards for CTE which meet or exceed the state's model content standards and describe the essential knowledge and skills that students enrolled in these courses are expected to master. The course curriculum shall be aligned with district-adopted standards and the state's curriculum framework.

*(cf. 6011 - Academic Standards)*

*(cf. 6141 - Curriculum Development and Evaluation)*

At least every three years, the District shall compare the district's curriculum, course content, and course sequence of CTE with the model state curriculum standards. (Education Code 52376)

The Superintendent or designee shall systematically review the district's CTE courses to determine the degree to which each course may offer an alternative means for completing and receiving credit for specific portions of the course of study prescribed by the district for high school graduation. The Board shall ensure that these classes are equivalent in content and rigor to the courses prescribed for graduation. (Education Code 52376)

*(cf. 6146.1 - High School Graduation Requirements)*

*(cf. 6146.11 - Alternative Credits Toward Graduation)*

*(cf. 6146.2 - Certificate of Proficiency/High School Equivalency)*

The Superintendent or designee shall develop partnerships with local businesses and industries to ensure that course sequences, career technical and integrated curriculum, classroom instruction and projects, and assessments have real-world relevance and reflect labor market needs and priorities. He/she also shall work to develop connections with businesses, postsecondary institutions, community organizations, and/or other employers to provide students with actual or simulated work-based learning opportunities.

*(cf. 1700 - Relations Between Private Industry and the Schools)*

*(cf. 5113.2 - Work Permits)*
