Information

Agenda Item
August 1, 2007

Prepared by: Michael Weissenborn, Facilities Planner/Construction Manager

Background information
As part of the Bidwell Modernization project undertaken in 2004, modifications were made to all the classroom doorways to meet ADA requirements. The specified overlay product failed to properly adhere to existing concrete. The ramps were cracking and splitting from the underlying concrete walks and needed to be replaced. Bids were opened on June 12, 2007 and the project awarded to Associated Building Contractors. The project was completed July 18, 2007.

Educational Implications
The District’s Strategic Plan states: “A safe, nurturing and inspiring environment is essential for individuals to thrive.”

Fiscal Implications
The filing of Notices of Completion (NOC) begins a thirty-five day lien period during which unpaid subcontractors, suppliers and other vendors can file a mechanics lien. If the NOC is not filed the lien period becomes 90 days.

Additional Information

Recommendation
It is requested that the Board of Education authorize the Superintendent or designee to approve and execute the Notices of Completion for the Entry Access Walkway Renovations at Bidwell Junior High School.

BOARD AGENDA ITEM

ITEM DESCRIPTION: CAREER TECHNICAL EDUCATION FACILITIES APPLICATIONS

Consent: ____________________________  Information: X  Action: X  Board Date: August 1, 2007

Prepared by: Liz Metzger

Background Information:
Under Proposition 1D, the Career Technical Education (CTE) Facilities Program provides state general obligation bond funding to help LEA’s reconfigure, construct, or modernize CTE facilities, or to purchase equipment (with a minimum 10-year life expectancy) for CTE programs. Pleasant Valley High School and Chico High School are each submitting proposals to modernize existing CTE facilities. In both cases, the modernization would allow the development of additional career pathway programs and the expansion of existing career pathway programs. Specifically, PV High would add a career pathway in Residential and Commercial Construction. Chico High would focus and expand the existing ACT program into two distinct career pathways – Media and Design Arts and Production & Managerial Arts – and add a new career pathway in Performing Arts.

Educational Implications:
Ultimately, this reconstruction and expansion will increase student academic achievement and connection to school. CTE programs are required to integrate academic standards into career-technical courses. For many students, the hands-on application makes the math or English that they are learning relevant, and thus boosts their achievement and their motivation to learn.

Fiscal Implications:
This grant requires a 100% cash match (not in-kind) from private business and industry partners, the LEA, ROCP, Perkins funds, or other funds if they are not restricted for any other purpose.

Additional Information:
Pleasant Valley is submitting two different applications for a single project. This is required because they are remodeling a facility that will house both a welding/manufacturing lab and a residential construction lab. Since these are different industry sectors, they require two applications. The budget for each of PV’s applications has been divided so that the majority of the costs are on the welding side, with additional costs in residential construction (as per a recommendation from the funder). The Chico High application includes three pathways that all fall under a single industry sector (Arts, Media and Entertainment), so only one application from CHS is required.

These proposals have been reviewed and approved, as required, by the district Career Technical Education Advisory Committee on July 25, 2007.
