PROPOSED AGENDA ITEM: Overnight field trip aboard the S.F. Maritime Academy

Prepared by: Janet Carroll, 5th Grade GATE teacher

☑ Consent  Board Date  March 24, 2010
☐ Information Only
☐ Discussion/Action

Background Information

Age of Sail augments and supports the goals set out in the content standards for history-social science by providing a learning experience that is founded upon, and encompasses the resources and activities that are strongly emphasized by the state board.

Education Implications

Age of Sail Program engages students through a challenging and memorable encounter with history, using both the tools of experiential education and the artifacts of the San Francisco Maritime National Historical Park. By living the life of a sailor aboard the last surviving examples we have of the working sail vessels of California, the students will gain a better understanding of not simply the local and state history, but also the concept of historical empathy, the skill critical to a meaningful understanding and evaluation of the past.

Fiscal Implications

Trip is fully funded by parent donations. Transportation will be provided by parents.

The State FFA conference is the highlight of FFA members' activities for the year. Two delegates from the Chico FFA chapter conduct business of the state association and elect officers to represent them during the coming year and attend various leadership workshops. The 12 other student participants will be attending workshops, conference sessions, ag career show and various ag tours.

Education Implications
Chico FFA members will be able to meet other FFA students from different chapters throughout the state of California. They will learn about leadership and team building skills that they can bring back and implement in our chapter. They will be able to watch the state FFA officers give speeches, perform the opening and closing ceremonies for each session and learn about parliamentary procedure. They will also be able to learn about the many opportunities that FFA has to offer them.

Fiscal Implications
N/A: The FFA ASB account will be paying for a portion of this conference along with a $50.00 deposit from each student. This deposit ensures that they are serious about going to the conference and secures their spot. If there is financial hardship, then the advisors will make accommodations if needed.

Additional Information
The students who attend this conference gain a new level of confidence and competence that will enable them to positively influence peers and generate a new level of excitement within the Chico FFA program.

Prepared by:
Michael Morris

_X_ Consent Board Date: _3-24-10_

___ Information Only

___ Discussion/Action

Background Information
Students with disabilities who take the California High School Exit Exam (CAHSEE) with modification (for example, using a calculator on the math test or having the English Language Arts test read aloud) receive an invalid score on the test. 2) Attained the equivalent of a passing score (350 or more points) on the CAHSEE.

At the parent or guardian's request, a school principal shall submit a request for a waiver of the requirement to successfully pass the high school exit examination to the governing board of the school district.

Educational Implications
If a student takes one or both portions of the CAHSEE with modifications and receives a passing score (350 or higher), s/he is eligible for a waiver of the requirement to pass the California High School Exit Exam. All other graduation requirements must be met.

Fiscal Implications

Recommendation
It is recommended that the board approve the waivers for the students indicated on the lists included in the board packet.
PROPOSED AGENDA ITEM:  Title I, Part A and Title I ARRA Waivers

Prepared by:  Janet Brinson, Director

☐ Consent  Board Date  March 24, 2010
☐ Information Only
☐ Discussion/Action

Background Information

On behalf of all eligible LEAs, the California Department of Education submitted waiver requests to the US Department of Education. The granted waiver requests pertain to Title I, Part A given the significant new funding for programs provided by the American Recovery Act (ARRA) for 2009-10. LEAs must submit waiver requests to the State Board of Education for approval to extend Title I, Part A and Title I ARRA funds through the 2010 – 2011 school year. Both Title I, Part A and Title I ARRA require set-asides for school choice, professional development and supplemental services. CUSD’s regular set-asides in these areas are sufficient to meet current demand/needs.

Educational Implications

The approval of these waivers will provide additional opportunities for focusing on a systematic means of building and supporting a coherent, standards-based instructional program for all students with a keen focus on student learning. It will also allow for a specific focus on the needs of high-priority students, English Learners and Students with Disabilities. Focusing on their needs by providing both strategic and intensive interventions is critical to helping improve their academic achievement.

Fiscal Implications

There is not impact to the general fund.
The LEA requests the following:

Section I. Waivers of Title I, Part A, Statutory and Regulatory Requirements

- (a) Exemption from the 14-day school choice parent notification requirement for students enrolled in newly identified program improvement (PI) schools for 2009–10 or schools that anticipated exiting PI during the 2009–10 school year but did not (Elementary and Secondary Education Act [ESEA] Section 1116[b][1][E][i]; 34 Code of Federal Regulations [CFR] Section 200.37[b][4][iv]). Please note that this waiver was previously granted for all applicable LEAs by the SBE at its September, 2009 meeting. The inclusion of this item in the application package, and your response, is for federal reporting purposes only. See assurances for Section I. (a) on page 5 of this application.

- (b) To offer SES to schools in PI year one, in addition to public school choice, to eligible students and to count those SES expenditures for eligible students in those schools toward the local educational agency’s (LEA’s) 20 percent obligation (ESEA Section 1116[b][10] and 34 CFR Section 200.48). See assurances for Section I. (b) on page 6 of this application.

Section II. Waivers Related to Title I, Part A, ARRA Funds

- (a) To exclude some or all of Title I, Part A, ARRA funding from calculation of the LEA’s 20 percent obligation for choice-related transportation and SES ESEA Section 1116[b][10] and 34 CFR Section 200.48[a][2]). See assurances for Section II. (a) on page 7 of this application and complete the ARRA LEA Waiver Plan.

ARRA Amount to be excluded: $1,516,336.00

- (b) To exclude some or all of Title I, Part A, ARRA funding from the calculation of the LEA’s 10 percent obligation for professional development (ESEA Section 1116[c][7][A][iii]). See assurances for Section II. (b) on page 8 of this application and complete the ARRA LEA Waiver Plan.

ARRA Amount to be excluded: $1,516,336.00
Number of teachers and principals that have received standards-based instructional materials professional development: 25 administrators; 316 teachers
Number of teachers and principals that have not received standards-based instructional materials professional development: 3 administrators; 32 teachers

- (c) To exclude some or all of Title I, Part A, ARRA funding from the calculation of the LEA’s 10 percent obligation for professional development for schools in PI (ESEA Section 1116[b][3][A][iii]). See assurances for Section II. (c) on page 9 of this application.

- (d) To exclude some or all of Title I, Part A, ARRA funding from the calculation of per-pupil amount for SES (ESEA Section 1116[e][6][A] and 34 CFR Section 200.48[c][1]). See assurances for Section II. (d) on page 10 of this application.

ARRA Amount to be excluded: $1,516,336.00

- (e) To request a waiver from CDE to carryover more than 15 percent of its Title I, Part A, 2009 and 2010 allocations due to ARRA funding (ESEA Section 1127[a][b]). See assurances for Section II. (e) on page 11 of this application.

PROPOSED AGENDA ITEM:  Monthly Enrollment and ADA Reports (Month 7)

Prepared by: Jan Combes, Assistant Superintendent, Business Services

☑ Consent
☐ Information
☐ Discussion/Action

Board Date: March 24, 2010

Background Information:

On February 20, 2008 the Board received the Fiscal Recovery Plan as prepared by Sheila Vickers, fiscal advisor to the district. The plan recommended that the Board receive monthly updates of enrollment and average daily attendance (ADA).

Education Implications:

Monitoring of enrollment is critical to ensuring that classes are of the appropriate size and configuration, ensuring that instructional opportunities are provided for all students.

Fiscal Implications/Analysis of Attached Reports:

As of the end of the seventh school month (February 19) we have 12,192 students enrolled, 456 fewer students than we did at the end of the seventh school month a year ago. We have averaged 478 fewer students each month this year than last.

Average daily attendance as of February 19, 2010 is 11,688, --- 482 ADA less than the same period in 2008-09.

We are getting very close to our P-2 reporting period which will drive our budgeted for 2010-11. In past years we have lost about .2% between February and March, a factor that is not uncommon for unified districts insofar as second semester secondary enrollments are normally less than first semester. We now project our P-2 ADA to be 11,664 which is 23 ADA more than our projection.

For 2010-11 our Multi Year Projection has been based on an estimate of:

- October Enrollment of 12,315 x 94.5% attendance rate = 11,641 P-2 ADA
- Minus 125 for the expected impact of charter schools
- Funding ADA for 2010-11 has been projected at 11,516

Across the district the ratio of ADA to enrollment is 95.46% s of the end of the seventh school month, slightly down from what was reported last month.

PROPOSED AGENDA ITEM: New Course Adoption - Agriculture Earth Science

Prepared by: Jim Hanlon/Quinn Mendez

☑ Consent

Board Date 3/24/10

Information Only

Discussion/Action

Background Information

In an effort to increase the rigor of the Agricultural course offerings at Chico High School, the department is eliminating "Landscaping" as an option to fulfill the physical science graduation requirement and replacing it with "Agriculture Earth Science." The Agriculture Earth Science course mirrors the California State Standards for Earth Science with an emphasis on agriculture content. The same textbook used for the conventional Earth Science will be used for the course. Supplementary materials will be provided for the Agriculture content.

Education Implications

The addition of this course will provide the opportunity for students to complete their science requirements within the Agriculture Department while taking additional and related coursework in Introduction to Agriculture, Plant and Soil Science and Ag Biology. Students will have a more cohesive sequence of Agriculture Science coursework with the intent to better prepare them for postsecondary education and/or work in agriculture.

Fiscal Implications

None. Agriculture Earth Science is replacing Landscaping as a course option to satisfy graduation requirements.

Additional Information

None.
NEW COURSE PROPOSAL OUTLINE

Course Title: Ag Earth Science
Grade Level: 10-11
Required/Elective: Required
Length/Credits: One year/10 credits
Prerequisites: Intro to Agriculture/Plant and Soil Science
Course Number: (To be completed by District)

I. Course Rationale and Description:

Earth Science in Agriculture is a one-year, laboratory science course, designed for the student with interests in Agriculture. Using agriculture as a learning vehicle, the course emphasizes the principles and practices of Earth Science as a way to demonstrate the relevance of Earth Science in Agriculture to each student's life and environment. This class will utilize local and regional issues and concerns to stimulate problem-solving activities and to foster a sense of Earth stewardship by students in their communities. The class will establish an expanded learning environment, which incorporates fieldwork, technological access to data, and traditional classroom and laboratory activities. The course is centered around an extensive laboratory component in order to connect the big ideas of all earth sciences with agricultural applications, physical science principles, and other curricular areas, including written and oral reporting skills.

A. COURSE GOALS

1. Develop knowledge and understanding of practical and essential Earth Science concepts and the principles Earth Science shares with other disciplines.
2. Understand basic principles of Earth System Science and think from an Earth System Science perspective
3. Develop an understanding of scientific inquiry and abilities needed to conduct scientific inquiry.
4. Understand the nature, origin, and distribution of Earth's energy, mineral, and water resources; understand technologies used to locate, extract, and process these resources; and be aware of the dependency on these resources to satisfy our wants, needs, and expectations.
5. Utilize agricultural applications as a relevant vehicle to teach Earth Science principles and improve the scientific literacy of students.
6. Strengthen instruction in science for students pursuing professional level careers in agriculture.
7. Integrate mathematics, language arts, and career employability standards including creative thinking and problem solving skills, and technological literacy related to the agriculture industry.
8. Meet a portion of the laboratory science requirement for admission to the University of California and California State University systems.
9. Develop a sense of interrelationships between earth science and its relationship to agricultural applications.

IV. **Instructional Methods:** Please indicate instructional methods to be used for special needs students, including Special Education, English Language Learners, and Honors.

**Hands on laboratory investigations:**
In order for students to fully grasp the sometimes-abstract concepts associated with Agriculture Biology, it is important that they experience hands on learning situations. All students, especially those with special needs or partial language fluency, benefit from learning by doing. By utilizing visuals and manipulative during hands on labs, English language learners can build on prior knowledge.

**Cooperative/ Small group learning:**
All students can benefit from the chance to interact with their classmate's in-group work situations, which allow students to take ownership in their education. Students of varying abilities are challenged as well as supported by interacting with other students.

**Learning centers/ activity packets**
Giving students packets with each skill to be learned allows them to learn at their own pace and gives them time to practice with those that they are least comfortable. At learning centers students can work with their peers to challenge and test each other.

V. **Grading Policy:**

1. Tests & Quizzes 30%
2. Laboratory Investigation Activities & Write-ups 30%

TITLE: Sherwood Montessori School Charter Petition Language Change

Action: ___x___  Consent: ___  Information: ___  March 24, 2010

Prepared by: Sara Simmons

Background Information
On December 2, 2009, the Sherwood Montessori School charter petition was approved. Subsequently, the school applied for a Charter School Planning and Implementation Grant from the California Department of Education. Reviewers determined that Sherwood Montessori lacked a statement in their petition which provided enrollment preference for children residing within the boundaries of the Chico Unified School District.

The suggested additional language (in bold) regarding the application process and preferences for the Sherwood charter would read as follows, “Children of current teaching staff and the Founding Board of Directors will be exempt from the public random drawing as long as those children do not exceed ten percent of all admissions in any one year, as required by federal law. However, it is not required that the children of the teaching staff or the Founding Board attend Sherwood Montessori. Siblings of currently enrolled students will also be exempt as per accepted public school policy and federal law. Students who reside in the Chico Unified School District will receive a higher weighting in the public random drawing.”

Educational Implications
Sherwood Montessori School will provide an additional choice for parents and students (grades K-8) when it opens in the Fall of 2010.

Fiscal Implications
The school will be a direct funded charter school, which means funding generated by student attendance will flow to the school and not to Chico Unified School District.

Additional Information
Sherwood Montessori has already completed an enrollment drawings, utilizing the previous wording in their charter. The board will determine if Sherwood needs to throw out the previous draw and begin anew, or proceed from this point on with the new language revision.
TITLE: Public Disclosure and Approval of tentative agreement between CUSD and CSEA, Chapter 110 – Completion of cost neutrality for Golden Handshake agreed to for 2008-09.

Consent: Information: Discussion/Action: X

Board Date: March 24, 2010

Prepared by: Bob Feaster, Assistant Superintendent, Human Resources

**Background Information:**

CSEA, Chapter #110 ratified the attached tentative agreement at a meeting on February 9, 2010. The parties initially agreed in September 2008 to a golden handshake offer to Chapter member that would meet the provisions of Government Code 20904 and in essence be cost neutral to the District. After all of the calculations involved there was a need for approximately $137,000 to create the neutrality. The current tentative agreement was reached on January 29, 2010 between the parties that spells out that the neutrality will be achieved. The Chapter will provide the District with the funds from their agreed upon share of the MAA funds.

The District’s approval of this tentative agreement requires Public Disclosure in accordance with AB 1200. The District has provided the required AB 1200 documentation to the Butte County Office of Education for their review and approval. That documentation along with the tentative agreement from January 29, 2010 is included.

**Educational Implications:**

There should be little or no educational implications as this article deals with the process of negotiations.

**Fiscal Implications:**

This is cost neutral.
TENTATIVE AGREEMENT
BY AND BETWEEN
CHICO UNIFIED SCHOOL DISTRICT
AND
THE CALIFORNIA SCHOOL EMPLOYEES ASSOCIATION AND ITS CHICO CHAPTER #110

This agreement is entered into by the parties in order to complete negotiations over the 2008-09 Golden Handshake. By prior fully-executed agreement, the parties agreed that the District's provision of the Golden Handshake in 2008-09 to eligible bargaining unit members must be cost neutral for the Chico Unified School District. After full implementation of the 2008-09 Golden Handshake and after implementation of the MOU between the parties dated February 2, 2009 which resulted in savings to the District intended to mitigate the cost of this Golden Handshake, the parties agree that the cost of providing the Golden Handshake was $137,291.00.

The parties also acknowledge that they have separately agreed that CSEA is entitled to a share of MAA reimbursement funds per MOU dated August 20, 2008. Under this agreement CSEA has the right to determine how its share of MAA reimbursement funds will be distributed to its bargaining unit members. The MOUs of August 20, 2008 and September 3, 2009 detail CSEA’s entitlement to a share of MAA reimbursement funds and their distribution to bargaining unit members.

Under the provisions of this agreement, the parties agree that CSEA’s entitlement to its share of MAA reimbursement funds will be utilized to pay for the $137,291.00 cost of the 2008-09 Golden Handshake. All of CSEA’s share of the MAA reimbursement funds, including those already earned and accrued but not yet distributed to CSEA, will be utilized to pay for the cost of the 2008-09 Golden Handshake until such cost is fully paid. Once the cost of the 2008-09 Golden Handshake is fully paid for, through deductions from CSEA’s share of the MAA funding, the parties agree that the provisions of the current MAA distribution agreement will return to full force and effect.

12. What are the Terms of the Agreement?

Under the terms of the Golden Handshake for 2008-09 retirees, CSEA and the District agreed that the incentive would be cost neutral. After the retiree pool was known, there remained $137,291 to be identified.

This represents the difference between: The cost of the GH less the savings from attrition (either through reduction, elimination, or the filling of the retiree's position by a less senior employee) less the cost of the retiree benefits provided for the retiree during the period of "early retirement" (deemed as two years).

On January 29th the District and CSEA reached tentative agreement to use CSEA's share of "MAA funds" towards meeting this one-time cost. The cost had not been built into the budget, nor had the MAA funds so there is no net impact on the budget as a result of this agreement at this time. If this agreement had not been reached, and the parties had been unable to agree on a solution, the net impact on the budget would have been a one-time cost of $137,291.

At this time we anticipate that the MAA funding for reporting years 2006-07, 2007-08 and part of 2008-09 will provide sufficient funding to cover this cost. The GH is paid in 2010-11 and 2011-12 and as such, the monies will be available in sufficient time so as not to impact the cash flow of the District.

____ Discussion/Action

Board Date: March 24, 2010

Background Information:
California School Employees Association and its Chapter 110 (CSEA 110) recently provided the District with their initial bargaining proposal for the 2010-11 school year. They have exercised their option to initiate negotiations of a successor agreement. This in essence opens up the entire contract for negotiations. In their proposal, CSEA 110 has identified specific Articles and sections that they would like to negotiate.

On December 2, 2009, the District shared with CSEA 110 and with the public its initial proposal to CSEA 110. That initial proposal was for reopening specific articles of the collective bargaining agreement rather than negotiating a successor agreement. The parties will move forward with the more wide ranging and comprehensive opening proposed by CSEA 110.

Educational Implications:
The proposal itself has no specific educational implications. The issues discussed and the subsequent settlement agreement could have educational implications.

Fiscal Implications:
The proposal itself has no specific fiscal implications. There are requests imbedded in the proposal for items that could result in increased costs to the District. These include but are not limited to the following items the CSEA 110’s proposal;

- Additional stipends
- Increases to the salary schedule
- Enhancements to shift differentials
- Enhancements to a variety of leave provisions
- Enhancements to vacations/holidays
- Enhancements to Health & Welfare benefits

A subsequent settlement agreement could have fiscal implications.

PROPOSED AGENDA ITEM: Student Information System (SIS) Recommendation

Prepared by: Jason Gregg, Director of Technology

☐ Consent  Board Date  March 24, 2010
☐ Information Only
☐ Discussion/Action

Background Information
Over the past year and a half the district has been researching the replacement of our student information system, SASIxp. SASIxp will no longer be supported by the vendor after June, 2010. The selection of the next information system was achieved with the help and support of a committee of stakeholders that included administrators, clerical support and teaching staff from different schools and grade levels.

Step 1: A series of product demonstrations during summer, 2009 were held at the district office from which the group developed a Request for Proposals (RFP).
Step 2: The Board approved the RFP on October 14, 2009
Step 3: We submitted the RFP to vendors in October seven companies responded.
Step 4: The two vendors who excelled above the rest in the rating of their written responses on the RFP were invited back to provide a demonstration that included hands-on use of the system by the stakeholders. Evaluation criteria set forth in the RFP included pricing, required features, customer references, respondents' competency and an implementation plan.
Step 5: A number of stakeholders visited two surrounding school districts which used the vendor's product to see the SIS at work in real time.

Considering all of the information we gathered through the process, it is the recommendation of the committee that we select Eagle Aeries as the next student information system for Chico Unified School District.

Educational Implications
The current SIS system has been in place for over 10 years and during that time other data bases have been incorporated with SASIxp student information to meet the educational goals in the district. Aeries will minimize the need for additional systems. It will allow real-time access to student information including attendance and grades for school personnel, students and parents. Aeries also integrates well with the way in which we manage our library and textbooks, student transportation and food services. Aeries will also help us stay on track for state reporting (CALPADS) and provide easy access both from workstations and from mobile access. Data will be available via the internet.

Fiscal Implications
Aeries will cost $216,062 to implement and $21,000 annually. This compares to SASIxp's annual cost of $56,000, representing a savings to the district.
Training staff on the new system will begin in the spring. Some of the cost of training can be paid from categorical funding (teachers and administrators) and some will impact the general fund (clerical and support staff). Overall, the $300,000 built into the budget is expected to be sufficient for the implantation and training to get Aeries up and running by the 2010-11 school year.

Recommendation:
Approve Eagle Aeries Student Information System to replace SASIxp effective for the 2010-11 school year.
PROPOSED AGENDA ITEM: Consider Options Regarding Chico High Parking Lot Agreement with California State University, Chico for 2010-11

Prepared by: Jan Combes, Assistant Superintendent, Business Services

☒ Discussion/Action

Board Date March 24, 2010

Background Information:

Chico High School has a parking lot that was built by the University in 1988 for their use.

In the beginning years of the agreement, use of facilities was provided free of charge in exchange for use of the parking lot. This included the use of the stadium for football games, Acker Gym for championship and PV vs.CH basketball games, use of the stadium for Chico High commencement, and use of Laxson Auditorium.

In the latter years of the agreement money was exchanged when the University began paying about $27,000 a year in lease payments for the parking lot and subsequently would charge Chico High for the use of facilities.

The income from the lot was budgeted to the Chico High budget and used to pay the facility use fees to the University. The University used some of the income they made on the parking lot to subsidize their billing to Chico High for facility use. The primary use of the lot was for Freshman Housing.

In 2009-10 the parking lot agreement was terminated by CUSD with the University because the construction firm for the Chico High building project needed the area for staging of construction materials. Use of University facilities has been billed back this year at actual rates, rather than subsidized rates. These rates were negotiated at the beginning of the school year and were paid by Chico High from funds carried over in their parking lot account budget.

The University subsequently did not allow Freshman to have cars on campus and no longer has need for the lot, other than – perhaps – for faculty parking. Regardless, they have worked with us to develop a draft agreement for consideration by the Board.

For 2010-11 the Board needs to determine if they wish to enter into an agreement to lease the parking lot to the University or if they wish to pursue other opportunities for use of the lot.

Representatives from the University will be available in regard to questions regarding the proposed lease agreement.
Financial Implications

Option 1:

Continue to lease the parking lot to the University. A proposed agreement has been drafted. We asked the University to provide us with some estimates of 2010-11 if this agreement was put into place.

If the spaces were leased at $144 each for faculty parking, the income from the lot would be about $40,000. Facility use fees are estimated at $30,671 leaving a net income of $8,750. That net income would be split at the end of the year and the University would send us a check in the amount of $4,375. If 100 of the spaces are used for freshman housing instead of faculty parking, the net income could be about $6,000 higher, and our net income could be as much as $6,375.

Option 2:

Consider paying the University for facility use fees (estimated to be $30,670) and manage the parking lot ourselves. Under this model we would rent out spaces, potentially to University faculty, who could be given a defined parking space.

If each space was rented at $500 a year, a number not inconsistent with city parking rates, gross income could be $150,000. After paying for the use of University facilities $120,000 would remain.

For comparative purposes, parking fees and rates from the City of Chico are included with this agenda item for information purposes.

The district would have business operating costs to pay as well, including but not limited to: preparing the lot (i.e. fencing and keyed entry gate), advertising, issuing the permits, collections, annual renewals, maintenance and utility costs, and the cost supervising the lot. Other issues to consider are the increased potential liability of entering into a profit-making venture.

Alternate Option 2:

Include a covered parking structure with solar panels on the lot to make parking more attractive and to generate solar power either for use within the grid or developed as a solar power purchase agreement with an outside company.

Recommended Action

The Board needs to provide district staff with direction regarding either Option 1 or Option 2.

PROPOSED AGENDA ITEM: Budget Update  
2009-10 Second Period Interim Report

Prepared by: Jan Combes, Assistant Superintendent, Business Services

☐ Consent  
☐ Information Only  
☒ Discussion/Action

Board Date 03/24/2010

Background Information:
The district reviews its budget at least four times a year and updates the projections to what is known at that time. This is the third revision for 2009-10

- The first occurred in September for the impact of the prior year carryover from 2008-09.
- The second occurred in December (First Period Interim Report).
- The third is in March (Second Period Interim Report).
- The fourth is in May (Third Interim Report, Year End Projections).

At each budget revision, the District revises the current year income and expenses projections as well as the estimates for the subsequent two fiscal years (2010-11 and 2011-12) to determine if the district is able to maintain adequate reserves and meet it obligations and commitments.

CUSD has been unable to demonstrate its ability to meet it financial obligations for the subsequent two year period since December 2007, when it filed for negative status.

Education Implications:
School districts that maintain a balanced budget and have adequate reserves are able to provide a broad range of educational programs for their students.

Fiscal Implications:

See report posted on the website.  
(The financial data is currently under review with the Fiscal Advisor and Butte County Office of Education and subsequently will be posted to the website as soon as it is available).

SECTION 1 – THE BOARD

School district and county offices of education are governed by Boards, not by individual trustees. While understanding their separate roles, the Board and Superintendent work together as a "governance team." This team assumes collective responsibility for building unity and creating a positive organizational culture in order to govern effectively.

To operate effectively, the Board must have a unity of purpose and meet these standards:

<table>

SECTION 2 – THE BOARD’S JOBS

The primary responsibilities of the Board are to set a direction for the district, provide a structure by establishing policies, provide support, ensure accountability and provide community leadership on behalf of the district and public education. To fulfill these responsibilities, there are a number of specific jobs that effective Boards must carry out. These standards highlight some of the most important ones.

Effective Boards meet these standards:

<table>
<thead>
<tr>
<th>Task</th>
<th>Always</th>
<th>Often</th>
<th>Rarely</th>
<th>Never</th>
<th>Unsure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Involve the community, parents, students and staff in developing a common vision for the district focused on student learning and achievement and responsive to the needs of all students.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Adopt, evaluate and update policies consistent with the law and the district’s vision and goals.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Maintain accountability for student learning by adopting the district curriculum and monitoring student progress.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Hire and support the Superintendent so that the vision, goals and policies of the district can be implemented.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Conduct regular and timely evaluations of the Superintendent based on the vision, goals and performance of the district, and ensure that the Superintendent holds district personnel accountable.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Adopt a fiscally responsible budget based on the district’s vision and goals, and regularly monitor the fiscal health of the district</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Ensure that a safe and appropriate educational environment is provided to all students.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Establish a framework for the district’s collective bargaining process and adopt responsible agreements.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Provide community leadership on educational issues and advocate on behalf of students and public education at the local, state and federal levels.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
THE BOARD’S GOVERNANCE GOALS

Based on the Board’s discussion of team member responses to the Board and the Board’s jobs sections of the self-evaluation survey, choose two to three standards the board agrees to focus on for governance growth over the next year.

**Goal 1: Establish a framework for the district’s collective bargaining process and adopt responsible agreements.**

To us this means...

What we will do...

How and when we will measure improvement or success...

**Goal 2: Provide community leadership on educational issues and advocate on behalf of students and public education at the local, state and federal levels.**

To us this means...

**Goals 3: Adopt a fiscally responsible budget based on the district’s vision and goals, and regularly monitor the fiscal health of the district.**

SECTION 3 – THE INDIVIDUAL TRUSTEE

In California's education system, a trustee is a person elected or appointed to serve on a school district or county board of education. Individual trustees bring unique skills, values and beliefs to their board. In order to govern effectively, individual trustees must work with each other and the superintendent to ensure that a high quality education is provided to each student.

To be effective, an individual trustee meets these standards:

<table>
<thead>
<tr>
<th></th>
<th>Always</th>
<th>Often</th>
<th>Rarely</th>
<th>Never</th>
<th>Unsure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keeps learning and achievement for all students as the primary focus.</td>

<tr>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Recognizes and respects differences of perspective and style on the board and among staff, students, parents and the community.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Acts with dignity, and understands the implications of demeanor and behavior.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Keeps confidential matters confidential.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Participates in professional development and commits the time and energy necessary to be an informed and effective leader.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Understands the distinctions between board and staff roles, and refrains from performing management functions that are the responsibility of the superintendent and staff.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Understands that authority rests with the board as a whole and not with individuals.</td>
