PROPOSED AGENDA ITEM:  Special Education  Non-public School Placements

Prepared by:  David Scott, Director of Educational Services

☑ Consent
☐ Information Only
☐ Discussion/Action

Board Date:  07/20/11

Background Information

As required by the Individuals with Disabilities Education Act of 2004, the district is required to provide a free and appropriate public education to all eligible students with disabilities. The assessed needs of some eligible students necessitate a placement out of the district in a non-public school or a residential program (out of home). The residential placements are made in collaboration with the Butte County Department of Behavioral Health per IEP team decision.

Education Implications

Students usually increase their academic, behavioral and social achievement when they are instructed in the most appropriate and least restrictive school environment.

Fiscal Implications

The current projected tuition cost for four students for fiscal year 2011-2012 is $157,000. The Butte County SELPA reimburses the district for 70% of the educational costs for each student placed in a non-public school through the Out of Home Funds received by the SELPA. The projected cost to the district for fiscal year 2011-2012 is $47,100. Residential cost for each student's placement is funded by the Butte County Department of Behavioral Health.

Additional Information

The number of students requiring non-public school/residential placement varies each school year.

PROPOSED AGENDA ITEM: Consultant Agreement with Loy Mattison (Mattison Enterprises)

Prepared by: Jason Gregg, Director – Information Technology

Board Date: July 20, 2011

XXX Consent
____ Information Only
____ Discussion/Action

Background

ERATE program provides discounts to assist most schools and libraries. The Schools and Libraries Program supports connectivity for communications using telecommunications services and/or the Internet. Due to the complexity of the program and the rules which must be followed Chico USD has used a consultant for many years to help with this process.

With the need to maximize any and all funding sources we find the need to have a consultant who can provide us with more than just filling and the forms and answering questions when they arise. Mattison Enterprise helps meet all the requirements and show us all our telecommunications billing/credits as part of the E-rate program. This helps to assure we are getting the full refunds and to do all the other parts of process. Mattison Enterprises has a long working relationship with district such as Sacramento COE and Sacramento City Schools and handling large accounts similar to Chico USD.

Financial Implications

There is no impact to general fund. Mattison’s Enterprise bills at an hour rate of $100 per hour. The estimate for our district is between 60-80 hours or $6000-$8000. This may be less as we would be billed only for the hours used instead of a flat rate of $8000 like we have had in the past with the previous E-rate consultant.

PROPOSED AGENDA ITEM: Nutrition Services Bids

Prepared by: Vince Enserro, Director of Nutrition Services

---

_X_ Consent

Information Only
Discussion / Action

Board Date: July 20, 2011

Background Information

Annually the Nutrition Services Department goes out for formal bid on grocery items and milk/dairy.

Educational Implications

For children of CUSD, Nutrition Services provides a nutritious meal that contains one-third of the recommended dietary allowance of necessary nutrients. For parents, the program offers a convenient method of providing nutritionally balanced meals at the lowest possible price. For schools, the program enhances children's learning abilities by contributing to their physical and mental well being. Studies have shown that children whose nutritional needs are met have fewer attendance and discipline problems and are more attentive in class.

Fiscal Implications

Cafeteria Fund Budget includes grocery and dairy products. No impact on General Fund.

Recommendation

Consider approval of granting authorization to the Superintendent/Designee to award bids to the lowest responsive bidders, as follows:

2. **Recommend approval of the 2010-11 Grocery Bid. The Grocery Bid involves 127 items that are awarded individually by item to the three lowest responsive bidders.**

Prepared by: Maureen Fitzgerald, Assistant Superintendent – Business Services

___ Information Only
XXX Discussion/Action

Board Date: July 20, 2011

Background Information

The District is currently utilizing the services of School Innovations & Advocacy to prepare and file our mandated costs claims. SIA has developed a proprietary software program that handles aspects of attendance and notice of truancy. The program also provides timely information for management to utilize in student interventions.

Discussion/Financial Implications

By approving this agreement, the District will pay to SIA $57,700 for the 2011-2012 year. There is an optional, 2-day training and professional development program which can be set up at a district selected site for up to 40 attendees at an additional fee of $4,000. SIA also offers a specialized, on-site application training course for an additional fee of $1,600.00 per day. Payment for any of these services will be made from the general fund upon approval by the Board.

TITLE:  Increase Fees for Home to School Transportation

Action:  X
Consent:  
Information:  

Prepared by:  Kip Hansen

July 20, 2011

Background Information
The District currently charges families $3.50 per round trip for Home-to-School transportation. This fee helps offset the unfunded portion of the cost of transportation. The district has not raised the fee schedule for Home-to-School transportation since the 2007/2008 fiscal year. The State of California annually sets the maximum set rate allowed for charging a fee for Home-to-School transportation, that rate for 2011-12 is $8.50

Each district calculates its own maximum set rate based on actual costs and state revenues. The maximum set rate for CUSD is $6.47 per round trip. The District currently charges $3.50. In order to assist families from bearing the full burden of the unfunded portion of Home to School transportation the recommendation is a rate change to $5.00 per round trip.

Upon Board approval of a new set rate all other ancillary transportation fees will be adjusted and brought back to the board for consideration/approval.

Fiscal Implications
Reduced impact on the general fund

Recommendation
That the Board of Education authorize the increase of the Home to School Transportation round trip rate from $3.50 to $5.00
AGENDA ITEM: Meal Count and Collection Procedures (MCCP) for Lunch and Breakfast

Prepared by: Vince Enserro, Director Nutrition Services

☐ Consent  Board Date  July 20, 2011

☐ Information Only

☒ Discussion/Action

Background Information
In order to govern effectively, District is required to have accurate and up-to-date Board Policies. By law, Districts are mandated to adopt many policies to ensure legal compliance. Working in conjunction with the California School Boards Association (CSBA) Policy Services, CUSD continues to update and revise Board Policies to ensure CUSD is legally compliant.

MCCP needed to be updated with new verbiage as well as add new school and feeding sites to the list.

Education Implications
Up-to-date policies provide clarity to the expectations for students, parents, and staff.

Fiscal Implications
CUSD is required to have up-to-date and legally compliant policies. Failure to have such policies in place jeopardizes funding opportunities, especially in regards to Categorical dollars.
CHICO UNIFIED SCHOOL DISTRICT
MEAL COUNT AND COLLECTION PROCEDURES FOR LUNCH
AND BREAKFAST

GENERAL PROCEDURES

CUSD is using the Nutrikids computerized cashiering system at all sites for Breakfast, Lunch and Snack programs.

APPLICATION PROCESS

1. Application Availability and distribution - We use several means of delivery to obtain eligibility applications to households and to notify households of the meal services provided and to provide them with applications for eligibility determination. First, for both secondary and elementary student households, the applications for Free and Reduced meals are mailed home to each household in our district student accountability and enrollment system, SASI. This is a district-wide mass mailing to households on or during the third week in July of each school year. Included in this mailing, households are provided with a return-addressed, confidential stamped envelope for direct mail return of completed applications to our nutrition services department.

A supply of eligibility applications is provided to Education Services. They make them available at registration days and for households at the District Office requesting them.

Next, a supply of applications are provided for each elementary school site on or near August 1 of each school year for clerical staff to insert application into each school’s general packet of back-to-school information. Some sites mail this application to each household included in their other parent informational packets. Others distribute them to each student on the first day of school.

In addition, a supply of applications is provided, from nutrition services to each school site office, for distribution by school sites when households requests them as well as for pick up by households at each school office. Each school cafeteria manager is provided and stocked with a stack of applications to provide to households or students upon request.

We also make available in the Nutrition Services Office applications and parents may call to have one mailed directly to their household or may pick them up.

Finally, they are available on-line at the district website on the Nutrition Services web page.
2. **Application Eligibility qualifying process** – Households complete the application and may send to nutrition services directly, return to the school site in person or with their child, drop it off at the school cafeteria or school site. All applications are required to be returned to Nutrition Services for processing.

The completed applications are visually reviewed by nutrition services office staff, entered into the NutriKids computer point-of-sale program for eligibility determination. The program determines the eligibility and assigns the application to the proper eligibility category based on information provided on the application and by any other information gleaned and verified from the visual by nutrition office staff and verbal verification by household contact.

The computer assigns the application an application number.

Eligibility letters are generated from the computer system indicating the eligibility determination for each member on the household application. These are mailed directly to the household from the Nutrition Services office. They can also be generated to hand to a household member that is physically in the nutrition services office when the application is processed. Letters are generated daily after eligibility is determined and the application entered into NutriKids.

Hard copies of applications with an application number are filed in numerical number and kept within the Nutrition Services office. The information on eligibility is also saved in the computer at the nutrition office and then transferred to the district office server where it is saved and backed up there.

Application information is issued to each site computer daily via the district office server. Each morning, each site, refreshes their computer with the new applications that have been processed the day prior or at anytime that the site initiates the "refresh" mode at the site.

3. **Direct Certification** – CUSD participates in the direct certification process in Butte County. Annually, around the early part of July, the Director of Nutrition Services or designee, is permitted to sign out a list generated from the county and provided to each district nutrition services department. This list is intended to provide the most current county list of participants in county programs that would be eligible also for school lunch. The CUSD designee signs a confidentiality agreement and the list is sent via email from the county. Then this information is loaded, with the assistance of the district IT department, into the Nutrition Services NutriKids system, which qualifies students as free eligible in the system. The Direct Certification list is kept on file with those names of students eligible filed under "Direct Certification". As of 2011 Foster Children are now direct cert.

4. **Homeless or Emancipated students** – These students are coordinated through the district assigned Homeless Student Coordinator Designee who documents the homeless or other status of students that will be eligible for free meals. This list is sent, at request by Nutrition Services, to the office and the students are entered into the NutriKids system indicating they are homeless. The list is kept in the file with the applications and the Direct Certification files separately, labeled "homeless". This list is obtained and updated as needed from the Homeless Student Coordinator Designee.
BENEFIT ISSUANCE

There are two modes of issuing benefits:

1. Eligibility letters are generated from the computer system indicating the eligibility determination for each member on the household application. These are mailed directly to the household from the Nutrition Services office. They can also be generated to hand to a household member that is physically in the nutrition services office when the application is processed. Letters are generated daily after eligibility is determined and the application entered into Nutrikids.

2. The Nutrikids program at the back office sends the new and updated information over to the district server. The district server transfers electronically the eligibility information to each site daily, and when students arrive in line for a meal their information is confidentially stored in the point of sale.

PAYMENT FOR MEALS

There are several vehicles to receive payment or make a transaction for a meal:

1. Prepayments for meals may be made, and is encouraged. These prepayments may be accepted in cash or check at the school cafeteria site, at the school office site, which sends them to the cafeteria, and at the nutrition services back office. Prepayments are accepted before school, during the serving line or at anytime there is nutrition staff to accept them and enter them into the computer. If the school office site accepts the prepayment it is not entered into the computer system until it is delivered to the appropriate nutrition site staff.

2. Cash is accepted in line during service. Prepayments prior to services are highly encouraged to speed the lines.

3. On-line prepayment was made available during the 2007-2008 school year.

4. Charges are allowed up to a charge limit of $8.00 at the elementary sites and up to $9.50 at the secondary sites, full-priced eligible students. For reduced-priced eligible students the charge limit is $2.10. Students are permitted to charge up to these limits. Negative charge balances are generated weekly when the charge for a reduced-priced eligible reaches $1.20 and when a full-price eligible reaches $3.50. At this notification, households are notified that when the student reaches the charge limit they will receive an "emergency meal" which consists of a cheese sandwich, fruit/ juice and milk, until the balance is brought to a positive. Negative charge balance notification letters are generated by the back office nutrition services staff and mailed directly to households for collection. Charge meals are claimed on the day they are served and the computer does not distinguish them as charged meals at the point of service. It calculates them into the summary of the eligible category served, i.e., reduced or full-priced.

5. Parents/guardians are also notified via phone message for negative balances.

MEDIUM OF EXCHANGE

The computer database holds the students eligibility status and codes that eligibility using the code described earlier.

A. There are two methods of exchange:
1. Elementary – elementary students line up for service by classroom, by alphabetical order (in as much as possible) and each class proceeds to the point-of-sale where the classroom on-line roster is display, students state their name, exchange either cash, use prepayment, or charge and go.

2. Secondary – students enter their five-digit district issued ID code into the key pad attached to the computer point-of-sale where their account is either displayed and request cash from the student or uses a prepayment stored in the data-base to either pay for the meal or any other ala carte item purchased. Student photos are also display and available for checking ID number usage with faces and ID cards. We have the availability to permit students without ID numbers, that may be new entering students, to be served as “new students”, claimed as full-priced, and no medium of exchange is collected at the point-of-sale, for a maximum of three days - to allow ID numbers to be issued.

B. Preventing claim of double meals: The NutriKids system does not allow a student to be claimed for multiple meals. The system flags the student when the first reimbursable meal is served and if a second is requested the system is set only to provide that student a “second meal" which is not included in the day end summary of reimbursable meals.

C. Overt Identification: Since all students are permitted to: prepay, use prepayment for meals and ala carte, to pay in line, or to pay amounts that vary in order to bring negative balance into the positive, and, that there is not indication on the monitor of eligibility status, it is virtually impossible for those that are not working with the registers to have knowledge of any other students eligibility from our system at the point-of-sale. Students are allowed to carry various amounts of credit on their accounts and this includes student in ALL eligibility categories. All students may pay cash or use prepayment on account for ala carte.

FIELD TRIPS

Field trip lunches are accounted for by having the students come down to the cafeteria and collect their lunch prior to the field trip and the lunch is recorded using the NutriKIds point of sale in order to claim that meal on the day served. If the students are leaving for a field trip prior to nutrition services staff on duty, then the cafeteria manager makes arrangements with the teacher on where the meals may be picked up in the kitchen with the list of students ordering a lunch. The teacher is to check off which students received a sack lunch and upon return of the field trip also return the check list to the cafeteria manager so that she may claim the meals. At some site each student picks up their sack lunch and goes through the point of sale.

ACCURACY OF COUNTS

- The meal is counted at the point of service as soon as the student is served and the cashier hits “close sale” on the keyboard. The student is counted as served based on the eligibility within the database.
- Our menu planning is NSMP. CUSD has adopted the offer versus serve choice with the requirement that students must take an entrée plus one side during lunch. At breakfast, students must take two of the three offered menu items/categories.
8.1.3.
Page 6 of 6

- Nutrition Services site staff verify components taken meet reimbursable meal requirements
  - In the secondary sites it is verified by the cashier as the student is served
  - In the elementary sites, the cashier may be at the front of the line or at the end of the line. If the point of sale is at the beginning of the line, an adult is at the end of the line checking for a reimbursable meal. If, students select less than the number required to complete a reimbursable meal they are encouraged to select another item that will complete the meal and, if that does not work, then the name of the student is collected and given to the cashier whereby that student is recorded as ala carte and the meal is not claimed. Our elementary sites are set up so that students can have an entire meal offered before the cashier and garden bars are set up before the cashier or set up so that not anything taken from them is needed to complete a reimbursable meal under offer versus serve.

REPORTS AND INTERNAL CONTROLS

- Meal counts are automatically compiled on the NutriKids software, daily by site (NutriKids operating procedures and report accountability manual attached). The system complete edit checks verifying counts with enrollments entered into the database and reports are available whenever needed listed under the accuclaim tests column. The nutrition services Senior Account Clerk completes and verifies the edit checks/report monthly prior to generating the claim report.

- The school sites count their daily deposits. All money and deposit slips are put into a plastic bank deposit bag and sealed. Sites send the deposit daily to the food service office where they are entered into a receipt log by date, school site, bag number, and amount. The number of the bags delivered is counted at the time of receipt in dual custody and each signs off on the log sheet (sending person and delivery person). When deposit bag arrives at the nutrition service office the bags are counted, again in dual custody, by the receiving person and signed off verifying the number of bags delivered with the number of bags received and the bag number is recorded on the login sheet. The Senior Account Clerk reconciles the deposits to the sales from each site and reconciles the deposits to the bank statement. All deposit bags are deposited at the bank night deposited at Tri-County Bank. The account clerk matches deposit slips returned from the bank with deposit records.

- Site Monitoring – The Nutrition Service management staff review sites regularly for compliance and procedures. Staff training for point-of-sale is completed at least once annually and reviewed at monthly manager meetings as needed.
AGENDA ITEM: Nutrition Services Presentation

Prepared by: Tanya Harter, Nutrition Services

Board Date: July 20, 2011

Background Information
In order to govern effectively, District is required to have accurate and up-to-date Board Policies. By law, Districts are mandated to adopt many policies to ensure legal compliance. Working in conjunction with the California School Boards Association (CSBA) Policy Services, CUSD continues to update and revise Board Policies to ensure CUSD is legally compliant.

In the Child Nutrition and WIC Reauthorization Act of 2004, the U.S. Congress established a new requirement that all school districts with a federally-funded school meals program develop and implement wellness policies that address nutrition and physical activity. CUSD choose to use the CSBA model and revise as needed to meet local needs and reflect community priorities. While developing this wellness policy, we took into account our unique circumstances, challenges, and opportunities. This was done so in a collaborative effort.

During the June 1, 2011 School Board Workshop the CUSD School Board reviewed the first reading of BP 5030 School Wellness. Jann Reed and Eileen Robinson were tasked with working with me to further revise the policy.

Educational Implications
Up-to-date policies provide clarity to the expectations for students, parents, and staff.

Fiscal Implications
CUSD is required to have up-to-date and legally compliant policies. Failure to have such policies in place jeopardizes funding opportunities, especially in regards to Categorical dollars.
Student Wellness

The Governing Board of Chico Unified School District (CUSD) recognizes the link between student health and learning. Children and youth that begin each day as healthy individuals are more receptive to the learning experience and more likely to succeed now and in the future. Further, the Board also believes that a healthy staff can more effectively perform their job responsibilities, and model appropriate wellness behaviors to students. This policy encourages a comprehensive approach to school and community wellness and addresses the components of the Coordinated School Health program as recommended by the California Department of Education and the Department of Health Services. CUSD is committed to providing a school environment that promotes and protects children’s health, well-being, and ability to learn by supporting healthy eating and physical activity.

It is the policy of CUSD that schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

Student Wellness Services
Student Wellness Services include Health Counseling, Psychological and Social Services. The Board supports effective wellness programs that will facilitate positive learning and instill healthy behaviors.

The Board supports school facilities that are designed to provide a safe, secure physical plant as well as a healthy and supportive environment that fosters learning and overall well-being.

District Wellness Committee Advisory Council
The Superintendent or his/her designee shall convene an advisory and oversight committee consisting of Board members, school-site administrators, School Site Wellness Representatives, health professionals, teachers, nutrition services staff, physical education instructors, parents, community members and students to evaluate policy implementation. The committee will report to the Board of Education about implementation of the policy as required by law.

Policy Adopted: 1/16/08
Nutrition Education and Physical Activity Goals
The Board shall adopt goals for nutrition education, physical activity, and other school-based activities that are designed to promote student wellness in a manner that the district determines appropriate. (42 USC 1751 Note)

The district’s nutrition education and physical education programs shall be based on research, consistent with the expectations established in the state’s curriculum frameworks, and designed to build the skills and knowledge that all students need to maintain a healthy lifestyle.

(cf. 6011 - Academic Standards)
(cf. 6143 - Courses of Study)

Nutrition education shall be provided as part of the health education program in grades K-12 and, as appropriate, shall be integrated into core academic subjects and offered through before- and after-school programs.

(cf. 6142.8 - Comprehensive Health Education)

CUSD will provide all students in grades K-12 the opportunity, support, and encouragement to be physically active on a regular basis through physical education instruction and/or physical activity programs.

Integrated Nutrition Education
Integrated Nutrition education in CUSD aims to teach, encourage and support healthy eating by students. Teachers will incorporate nutrition education into their instruction. At the secondary school level it is recommended that subject appropriate teachers incorporate nutrition education into their instruction.

Integrated nutrition education will provide students with the knowledge and skills necessary to promote and protect their health.

Physical Education and Physical Activity
All students in grades K-12 shall be provided opportunities to be physically active on a regular basis. Opportunities for moderate to vigorous physical activity shall be provided through physical education, recess, school athletic programs, extracurricular programs, before- and after-school programs, and other structured and unstructured activities.

Physical education is a planned sequential program of curricula and instruction that helps students develop the knowledge, skills, and confidence necessary for an active lifestyle. Physical activity programs may provide participants with structured activity (games, sports, etc.), unstructured activity (walking programs, dance, etc.), or opportunities to participate in physical activity in the daily routine (walk-to-school programs, etc.).

Besides promoting high levels of personal achievement and a positive self-image, Physical Education activities should teach students how to cooperate in the achievement of common goals.

(cf. 6142.7 - Physical Education)
(cf. 6145 - Extracurricular and Co-curricular Activities)
(cf. 6145.2 - Athletic Competition)

Staff Wellness
The Superintendent or designee shall encourage staff to serve as positive role models. He/she shall promote and may provide opportunities for regular physical activity among employees.

Policy Adopted: 1/16/08
Professional development may include instructional strategies that assess health knowledge and skills and promote healthy behaviors.

(cf. 4131- Staff Development)
(cf. 4331- Staff Development)

Family and Community Involvement
The Board believes that family and community involvement and collaboration are key elements in supporting the healthy development of youth and their families. Long-term partnerships with diverse community groups are encouraged. The Board recommends partnerships that will promote health education activities for parents/guardians and community members.

To encourage consistent health messages between the home and school environment, the Superintendent or designee may disseminate health information to parents/guardians through district or school newsletters, handouts, parent/guardian meetings, the district or school web site, and other communications. Outreach to parents/guardians shall emphasize the relationship between student health and academic performance.

(cf. 1113 - District and School Web Sites)
(cf. 6020 - Parent Involvement)

The Board discourages the marketing and advertising of non-nutritious foods and beverages through signage, vending machine fronts, logos, scoreboards, school supplies, advertisements in school publications, coupon or incentive programs, or other means.

(cf. 1325 - Advertising and Promotion)

Nutrition Guidelines for Foods Available at School
The Board shall adopt nutrition guidelines selected by the district for all foods available on each campus during the school day, with the objectives of promoting student health and reducing childhood obesity. (42 USC 1751 Note)

The Board believes that foods and beverages available to students at district schools should support the health curriculum and promote optimal health. Nutrition standards adopted by the district for all foods and beverages sold to students on campus, including foods and beverages provided through the district's food service program, student stores, vending machines, fundraisers, or other venues, shall meet or exceed state and federal nutrition standards.

(cf. 3312 - Contracts)
(cf. 3550 - Food Service/Child Nutrition Program)
(cf. 3554 - Other Food Sales)
(cf. 5148 - Child Care and Development)
(cf. 6300 - Preschool/Early Childhood Education)

By July 1, 2012, the Board shall require all school organizations to use only district approved healthy food items or non-food items for fundraising purposes. The district will make available a list of approved healthy food items. Any food items not on the list will need approval from CUSD Nutrition Services prior to use for fund-raising.

1.

Policy Adopted: 1/16/08
By July 1, 2012 parents and teachers will be required to comply with the list of CUSD approved healthy foods and non-food items for all school related activities, including classroom parties. The district shall require all persons bringing food on campus to share with others to adhere to the “CUSD Nutritious Foods Pledge” which must be reviewed and signed prior to bringing food on campus. Class parties or other celebrations shall be held after the lunch period when possible.

By July 1, 2012 the Board shall require school staff to encourage school staff to avoid the use of non-nutritious foods as a reward for students’ academic performance, accomplishments, or classroom behavior (cf. 1230 - School-Connected Organizations)

School staff shall encourage parents/guardians or other volunteers to support the district’s nutrition education program by considering nutritional quality when selecting any snacks which they may donate for occasional class parties and by limiting foods or beverages that do not meet nutritional standards to no more than one food or beverage per party. Class parties or celebrations shall be held after the lunch period when possible.

Beginning July 1, 2009, any food provided to K-12 students during school hours and within one-half hour before and after school shall not contain or have been prepared with artificial trans fat, including vegetable shortening, margarine, or any kind of partially hydrogenated vegetable oil, unless the manufacturer’s documentation or label lists the trans fat content as less than 0.5 grams per serving. (Education Code 49431.7)

Guidelines for Reimbursable Meals
Foods and beverages provided through federally reimbursable school meal programs shall meet or exceed federal regulations and guidance issued pursuant to 42 USC 1758(f)(1), 1766(a), and 1779(a) and (b), as they apply to schools. (42 USC 1751 Note)

In order to maximize the district’s ability to provide nutritious meals and snacks, all district schools shall participate in available federal school nutrition programs, including the National School Lunch and School Breakfast Programs, to the extent possible.

(cf. 3553 - Free and Reduced Price Meals)

Program Implementation and Evaluation
The Board shall establish a plan for measuring implementation of the policy. The Superintendent shall designate at least one person within the district and at each school who is charged with operational responsibility for ensuring that the school sites implement the district’s wellness policy. (42 USC 1751 Note)

(cf. 0500 - Accountability)

The following indicators will be used to measure the implementation of the wellness policy district wide and at each district school. These measures shall include, but not be limited to, an analysis of the nutritional content of meals served; student participation rates in school meal programs; adherence to the ban on sales of non-nutritious foods and beverages in fundraisers or other venues outside the district’s meal programs; and feedback from food service personnel, school administrators, the school wellness committee health council, parents/guardians, students, and other appropriate persons.

The Superintendent or designee shall report to the Board at least every two years on the implementation of this policy and any other Board policies related to nutrition and physical activity.

Policy Adopted: 1/16/08
