

MEASURE E SCHOOL SITE SURVEY

PLEASANT VALLEY HIGH SCHOOL

Staff Recommendations
Modernization of B,C,D,E and V buildings
Repairs of the gym floors
Air-conditioning in the gyms/enclosed covering of the space in between the two gyms
Upgrades and new construction in the physical education and athletic facilities
All-weather surfaces for athletic facilities
Sufficient seating and restrooms for athletic facilities
3 additional tennis courts
Team/Locker rooms
Development of technology "bundles" similar to the ones intended for the new classroom building
Upgrades of infra-structure and additional hardware upgrades to current technology in all rooms (TV, DVD, Smart Boards, CPX projector, ELMO)
Repair leaky roofs
Testing center
Cart with computer/iPads and other technology to accommodate common core prep and testing
More efficient HVAC units, Admin building
Need stadium
Beautification: murals restored and the tile work fixed on pillars around school
Modernize M-4 lab/classroom into an adjoin classroom (M-3?) for a green screen filming area for production
Replace carpeting and paint Admin offices
New monitors for Audio/Video class in order to support new software
15 new tables for D-5, approx. 20" x 60"
Hire itech person to help us become more effective
Class sets of tablets, more computers
More laptops for student check-out in library
DVD external burners
Replace/Modernize computer lab in M-3 and accommodate more students
Creative Suite 6 and Classroom in a Book for Photoshop (class set)
Locking portable media cart
More storage
New tall seats for the drafting tables

New art desks or tables for D-4
Updated digital cameras (5), memory cards (5)
Ability to download things to computer/laptop without admin permission
Better outdoor lighting on the campus
Fix the light system in storeroom in D-2 so it is not affected by lights in D-1
Fix ventilation system in D building
Picnic tables and benches on campus
Sound proof windows for labs/classrooms
New white boards as needed
Welding Lab shade/rain covered structure
Hot water for Welding Lab
Shade/rain covered structure in Manufacturing yard
Hot water for Manufacturing Lab
Update Drafting Lab computers
Undersized Drafting Lab--move or expand
Technology Department:
New computers/laptops/tablets
Class sets of headphones with microphones
New computer mice (USB capable)
Digital camcorders
Document cameras
Ebeam
Subscriptions to NetOps Vision, Turnitin.com (plagiarism software), funds for subscriptions to databases for our students, Overdrive
Scanners, Web Cams, Video Conferencing equipment
Remove mold in C-5 and other C buildings
D-1 (Culinary, Nutrition Science and occasionally a LM or TT course)--Major Modernization
Ceiling tiles falling down, physical hazard to food preparation
Lighting installed over ventilation ducts. Efficient cleaning difficult since lights must be taken completely down to clean out fans
Electrical updated needed. Non GFI plugs near food prep areas and often tripped
Triple sink installed with no air-gap, leak frequently and tiles under are molding
Plumbing frequently leaks
Tiles under large refrigerators are breaking and becoming loose
Countertops ideally should be stainless steel or more durable surface like laminate
Walls need to be non-porous for food preparation, paint flakes and comes off when scrubbed

Floor is cracked and holes in floor from old electrical plugs can be hazardous, occasionally a chair leg breaks through & causes student chair to tip
Update facility to meet industry standards for student training per advisory and WASC committees
Stoves need updated to industry level, hood and ansel system
Technology for training with front of house inadequate
Washer and dryer (we currently do 4 loads per day) is in the middle of the academic/seating area. Concurrent use is often loud in classroom
Refrigeration is on the other side of the classroom from the kitchen area. Currently no where to place large refrigerators or under counter refrigeration
There are holes that are open to interior walls in the back of the cabinets where the plumbing has been repaired, but the wall left open
Cords for technology are "octopus like" to connect LCD, teacher workstation, Ethernet cables, etc...
Wireless capability for use in lab stations needs consideration
Inadequate way to receive products, no access easy during daytime for loading supplies and receiving
C-4 (core HECT, LM and TT, Human Dev)
Ceiling tiles are very stained from leaks
Room occasionally leaks
Paint is peeling away
Section of upper wall is disintegrating from the water damage
Rooms smell like a combination of rat urine and mold when it rains
Back storage room houses supplies for about a dozen teachers of CPA and HECT depts.
Countertops may contain asbestos
Tiles coming up and unknown substances under some tile areas
C-7 (Fashion, HERO, CWK)
Need for storage of fashion design supplies/sewing machines, pressing, student projects
Rooms need new ceiling tiles/leaks
Rooms need old electrical panels removed and new electrical system for meeting curriculum standards
No exterior windows
Hall for egress in not professional (was old science storage area)
Faucets leak and not functional
"Octopus-like) cords a danger by teacher work station and when students use machines
Attic access is a pull down ladder in the back of the classroom that when used is distracting and interferes with student learning
Countertops in hall mall contain asbestos
Paint is peeling away
Noise level unacceptable for instruction since you can hear all other classrooms linked to the inner classroom of C-7.
Student Recommendations
At least on All Terrain field for soccer, field hockey, football--students trip on holes
Sand pit needs (clean) new sand

Awning over the bleachers-sun factor and rain
Football field bathroom needs paper towels
Renovation of most all bathrooms, especially in C bldg.
(hand sanitizers, privacy partitions between urinals, hot water, hand dryers, tampon/kotex pad dispensers, full length mirrors, better lighting, auto flushing toilets, lighter paint, electric seat covers)
Women's staff bathroom next to library--hand dryer on the right doesn't work right
Hire a part-time gardener for campus beautification
A large fountain or two around campus
Valhalla needs to be bigger with glass
Chocolate mike machine
Sprinkler system inside campus that is automatic and doesn't water the cement instead of the plants
More larger evergreen and flowering plants between D&B bldgs.
New and more working lockers with PV colors inside gym and around campus
Put evergreen trees/no fruit producing cherries. Trees with pretty blossoms in place of trees cracking cement in quad
Fiberglass picnic tables in the grass areas next to both sides of the library and by D/C buildings, more picnic tables
More garbage cans around campus--especially in parking lot
Replace the grey tiles with stucco or something more permanent
Overhang from parking lot to main campus, form new building/portables to main campus & between S&P, S&O, O&E/P & O &B
Swimming poo on out campus with landscaping
Student lounge with coffee/hot chocolate/water for sale/ computers-sofas, massage chairs for a cost, hand sanitizer, bathrooms with more than 4 stalls
Warming centers for students at lunch time, before and after school
Metal railings around campus not very pretty and cold feeling
Have more cameras, especially to catch people tagging murals
A Viking statue
Repaint line in parking lot-make them diagonal
Replace cement parking spot barriers in parking lot
Repaint SENIORS
Repaint the gym-paint is flaking off
Not enough food for 2nd lunch students (maybe another food cart)
Plants in the front by the marquee, parking lot, between the gyms, in the new brick planter in front of office
More water fountains and the water pressure needs to be increased on all of them
Elmo/3-D Document Camera Projectors in each room
Smart boards in each room
New cafeteria
New culinary kitchen

Bleachers
Turf (soccer, baseball & football)
Refurbish gym floor
Fix drainage issues (goodbye Lake PV)
Modernize boy's and girl's bathrooms
Swim facility
Heating /cooling A & B buildings
B, C, & D building modernization
Showers/locker room upgrade
Traffic flow/turn lanes of East Avenue--improve it
A/C in large and small gym
Improve lighting & ventilation in current classrooms (more windows?)
P building modernization
Create softball field
Ventilation for locker rooms
Improve fields (get rid of rocks, holes, new grass?)
Covering or shade area near track & field
Tennis wall
Class set of bikes/storage for bike "the mile" instead of run it (CHS)
iPads for all students
D-5 needs tables and many chairs replaced. Cushioned chairs instead of plastic ones would be better on the students' back
Automated doors--for handicapped students or people with hands full
Desks with flat cages under desks for books
Air conditioning/heaters that work, are quiet and can be regulated by the teacher
D-5 has an air compressor outside that is so loud that students in classroom can't hear teacher when it goes off
There is a hole in the red door in D-5 and it blows in cold air
We need a full-time tech support person on campus
We need new/faster computers in classrooms, library, updated laptops and another computer lab..ours is always full
Teachers all need iPods
Lights in D building won't turn on unless all of them are on and randomly go out
Ceiling D-5 needs to be lowered and new tiles--horrible acoustics
Large projector screen needed
White boards needed on both sided of room D-5
Sink needs to be replaced...it doesn't drain

The smell from the cooking class is overwhelming
Replace carpeting
More natural light (skylights)
A system to replace the LCD projector bulbs when they blow out (so they don't come out of the already minimal budgets teachers have)
More exits for parking lot
A place for parents to drop off and pick up students without buses
Major bottlenecking of cars before school and after school
Air filters in locker rooms and mat room
Large weight room to spread out equipment (safer)
PTSA Recommendations
Air conditioning in both gyms
Enclosed common area developed between both gyms
