BUY AMERICAN REQUIREMENT

The Buy American provisions are found in the regulations of the National School Lunch Program (NSLP) at 7 CFR 210.21(d) and the School Breakfast Program (SBP) at 7 CFR 220.16 (d). The Buy American provision requires participants to purchase, to the maximum extent practicable, domestic commodities or products for use in meals served under the NSLP and SBP.

Two situations that may warrant a waiver to permit purchases of foreign food products are:

- 1) The product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality.
- 2) Competitive bids reveal the costs of a U.S. product are significantly higher than the foreign product.

A domestic commodity or product is one that is produced and processed in the United States substantially using agricultural commodities that are produced in the United States. "Substantially using" means over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. This includes foods that are sold to students as a la carte food items.

Actions that districts/sponsors can take to comply with the Buy American requirements are:

- Including a Buy American clause in all procurement documents (product specifications, bid solicitations, requests for proposal, purchase orders, etc.)
- Monitoring contractor performance
- Requiring suppliers to certify the origin of the product
- Examining the product packaging for identification of the country of origin
- Asking the supplier for specific information about the percentage of U.S. content in the food product
