You can also hide messages from new people (people you haven't talked to before)

Step one: click the gear icon in the top left corner

Step two: click the privacy button

Step 3: click the block list button and then click the
+ icon in the top right corner. From there, you can

How to deactivate your KIK account

To deactivate your account:

- 1. Go to Settings > Your Account > Reset KIK Messenger.
- 2. Delete the app from your phone.
- 3. Ask a friend with KIK to send you a message (to the KIK account you're logged out of). You will receive an email from us letting you know that you have unread messages. There will be a link to deactivate your account at the bottom of that email.

It may take a few days to receive this email. If you login to your account before receiving the deactivation link, the email will be cancelled and your account will remain active.
