PROFESSIONAL ENVIRONMENT STANDARDS

The Governing Board is committed to providing the best facilities possible for staff, parents and students to use in the promotion of the mission of student learning and academic achievement.

Additionally, the Board expects district employees to maintain all facilities in a professional manner and that all personnel keep their assigned area(s) neat, clean and organized so that community members, parents and students are able to conduct their business in a professional space. All facilities should enhance the District's goal of providing safe, comfortable, clean and welcoming schools for children to learn.

Public areas should enhance the activities and functioning of the district, advance the goals of the district, and contribute to a positive school climate.

The Board strongly encourages staff to emphasize with students that they play an important part in maintaining high quality facilities and that students should take an active role in caring for school buildings and property.
