HEALTH CARE AND EMERGENCIES

The Board of Education recognizes the importance of taking appropriate action whenever an emergency threatens the safety, health or welfare of a student at school or during school-sponsored activities.

The Superintendent or designee shall ask parents/guardians to provide emergency contact information in order to facilitate communication in the event of an accident or illness.

"Do Not Resuscitate" Orders

The Board believes that staff members should not be placed in the position of determining to follow any parent/guardian or medical "do not resuscitate" orders.

Automated External Defibrillators

The Board authorizes the Superintendent or designee to place automated external defibrillators (AEDs) at designated school sites for use by school employees in an emergency, in accordance with the accompanying administrative regulation.

The authorization of AEDs in district schools shall not be deemed to create a guarantee that an AED will be present or will be used in the case of an emergency, or that a trained employee will be present and/or able to use an AED in an emergency, or that the AED will operate properly.

Trauma Kits

Any district school with an occupancy of 200 or more that was constructed on or after January 1, 2023, or was constructed prior to January 1, 2023, and modified or renovated as specified in Health and Safety Code 19310, shall acquire, place, and maintain trauma kits in accordance with the accompanying administrative regulation.

School employees shall be notified annually of the location of the trauma kits and be provided with information regarding training in the use of the trauma kit. (Health and Safety Code 19310)
