RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS

The Board of Education recognizes that students' education would be incomplete without an understanding of the role of religion in society. As appropriate for a particular course, teachers may objectively discuss the influences of various religions, using religious works and symbols to illustrate their relationship with culture, literature or the arts. The Board expects that such instruction will identify principles common to all religions and foster respect for the diversity of religions and customs in the world and be consistent with the adopted instructional materials and state standards, as applicable.

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is forbidden in the public schools. The Superintendent or designee shall ensure that instruction about religion does not promote or denigrate the beliefs or customs of any particular religion or sect, nor that a preference be shown for one religious viewpoint over another. Staff members shall be highly sensitive to their obligation not to interfere with the religious development of any student in whatever tradition the student embraces, and treat all religions and religious convictions, including nonbelief, with fairness and respect.

Staff shall not endorse, encourage or solicit religious or anti-religious expression or activities among students during class time.

Staff shall not coerce students in prayer or other religious activities as part of their official duties. Additionally, staff shall not prohibit or discourage any student from praying or otherwise expressing the student's religious belief so long as this does not disrupt the classroom or other school-sponsored activity.

Students may express their beliefs about religion in their homework, artwork and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards, relevance, and other legitimate pedagogical objectives.

While teaching about religious holidays is a permissible part of the educational program, celebrating religious holidays is not allowed in the district. School-sponsored programs shall not be, nor have the effect of being, religiously oriented or a religious celebration. School and classroom decorations may express seasonal themes that are not religious in nature. The use of religious symbols that are part of a religious holiday is permitted as a teaching aid or resource provided that such symbols are displayed as an example of cultural and religious heritage of the holiday and temporary in nature.

Music, art, literature or drama programs having religious themes are permitted as part of the curriculum for school-sponsored activities and programs if presented in an objective manner and as a traditional part of the cultural and religious heritage.
