DISCIPLINE

The Governing Board is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent/guardian involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the students' behavior and implement appropriate discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the students' health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

The Superintendent or designee shall provide professional development as necessary to assist staff in developing the skills needed to effectively implement the disciplinary strategies adopted for district schools, including, but not limited to, knowledge of school and classroom management skills and their consistent application, effective accountability and positive intervention techniques, and the tools to form strong, cooperative relationships with parents/guardians.

District goals for improving school climate, based on suspension and expulsion rates, surveys of students, staff, and parents/guardians regarding their sense of school safety and connectedness to the school community, and other local measures, shall be included in the district's local control and accountability plan, as required by law.
