PRESCHOOL/EARLY CHILDHOOD EDUCATION

The Governing Board recognizes the value of high-quality preschool experiences to enhance children's social-emotional development and acquisition of instructional knowledge, skills, and abilities. The Board desires to provide a supervised and cognitively rich environment designed to facilitate the transition to kindergarten for three- and four-year-old children.

To receive preschool services, a child and the child's parent(s)/guardian(s) shall be required to provide evidence of residency in California. However, any person identified as experiencing homelessness shall only be required to submit a declaration that the person resides in California. (5 CCR 17745)

Preschool eligibility determinations shall be made without regard to a child's immigration status or that of the child's parent(s)/guardian(s) unless the child or the child's parent(s)/guardian(s) are under a final order of deportation from the United States Department of Homeland Security. (5 CCR 17745)

District Preschool Programs

The district may contract with the California Department of Education (CDE) to provide preschool services in facilities at or near district schools, either directly or through a subcontract with a public or private provider.

District preschool programs shall comply with all health and safety laws and regulations, including, when applicable, licensure requirements pursuant to 22 CCR 101156.

The Board shall approve, for the district's preschool program, a written philosophical statement, goals, and objectives that reflect the cultural and linguistic characteristics of the families to be served and address the program components specified in 5 CCR 17701-17711 and the accompanying administrative regulation. (5 CCR 17701)

When establishing or expanding services as resources become available, the Board should consider the benefits of providing early education programs for at-risk children and/or children residing in the attendance areas of the lowest performing district schools.

Preschool classroom needs shall be addressed in the district's facilities master plan, including an assessment as to whether adequate and appropriate space exists on school sites. As necessary, the Superintendent or designee shall provide information to the Board regarding facilities financing options for preschool classrooms and/or facilities available through partnering organizations or agencies.

The Superintendent or designee shall coordinate the district's preschool program, transitional kindergarten program (TK), and elementary education program to provide a developmental continuum that builds upon children's growing skills and knowledge.

A child's eligibility for TK enrollment shall not impact family eligibility for a preschool or child care program. (Education Code 8205, 48000)

The district's program shall be aligned with preschool learning foundations and curriculum frameworks developed by CDE which identify the knowledge, skills, and competencies that children typically attain as they complete their first or second year of preschool.

The Superintendent or designee shall identify dual language learners in district preschool programs, and shall
collect and report related data to CDE as required by Education Code 8241.5. The district's preschool program shall include activities and services that meet the needs of dual language learners for support in the development of their home language and English. (Education Code 8203)

The district's preschool program shall serve children with exceptional needs as required by Education Code 8208. Children with exceptional needs attending any CSPP program shall be educated in the least restrictive environment in accordance with 20 USC 1412.

The district's preschool program shall provide appropriate services to support the needs of at-risk children.

To maximize the ability of children to succeed in the preschool program, the program shall support children's health through proper nutrition and physical activity and shall provide or make referrals to available health and social services as needed.

The Superintendent or designee shall ensure that administrators, teachers, and paraprofessionals in district preschool programs possess the appropriate permit(s) issued by the Commission on Teacher Credentialing, meet any additional qualifications established by the Board, and participate in professional development opportunities designed to continually enhance their knowledge and skills.

Preschool admissions policies and procedures shall be in writing and available to the public. Such policies and procedures shall include criteria designating those children whose needs can be met by the program and services, the ages of children who will be accepted, program activities, any supplementary services provided, any field trip provisions, any transportation arrangements, food service provisions, and a health examination requirement. (5 CCR 17743; 22 CCR 101218.1)

The Superintendent or designee shall ensure that the plan to provide access to full-day learning programs the year before kindergarten addresses the needs of preschool children and their families as specified in BP 6170.1 - Transitional Kindergarten. (Education Code 8322)

The Superintendent or designee shall develop and implement an annual plan of evaluation which conforms to state requirements. (5 CCR 17709-17711)

The district's uniform complaint procedures, with modifications as necessary, shall be used to investigate and resolve complaints alleging violation of applicable health or safety requirements for license-exempt programs operating under the California State Preschool Program. However, licensed programs shall refer complaints alleging health and safety violations to the California Department of Social Services. (Education Code 8212; 5 CCR 4610, 4611, 4690-4694, 17781)
