CONSULT ORIGINAL AND SUPPLEMENTARY INSPECTION REPORTS FOR MATERIALS WITH TRACE AMOUNTS OF ASBESTOS
CERTIFICATION OF COMPLIANCE FOR BUILDING MATERIALS

This is to certify, in accordance with the Environmental Protection Agency requirements, that the materials and equipment used in the construction of the Reroof and Make-up Air Replacement at the Chico Junior High School for the Chico Unified School District Chico, Butte County, California, is asbestos free and is, therefore, not subject to monitoring for asbestos contamination.

Project Name: Reroof and Make-up Air Replacement at the Chico Junior High School

Address: 280 Memorial Way Chico, CA 95926

Contractor: United Building Contractors, Inc.

Address: 275 Fairchild Avenue, Chico, CA 95973

Signature: [Signature]

Title: John Gilmore, Vice President

SEPARATE CERTIFICATE IS REQUIRED FOR EACH SITE

Certification of Compliance for Building Materials

SECTION 1.70 – Page 101
PROJECT CLOSEOUT
1.70N.doc
January 15, 2008

Chico Unified School District
2455 Carmichael Dr.
Chico, CA 95928

To whom it may concern:

RE: New Toilet Room at Chico Jr. High School

There was no material with asbestos used on this project.

Thank you,

Kim Azevedo
Armstrong World Industries, Inc. no longer manufacturers resilient floors or adhesives that contain asbestos.

The information provided below represents the last date for each floor product category that Armstrong produced containing asbestos. Please note, these dates reflect Armstrong's last manufacture, not the products' sale or installation.

COMMERCIAL TILE June, 1981

RESIDENTIAL TILE December, 1982

ADHESIVES (S-89 AND S-90) January, 1983

SHEET VINYL April, 1983

Please be advised that there are federal and, in many states, also state and local regulations which you must consult to determine the procedures required to be followed when removing in-place asbestos-containing materials. Most of these regulations focus on friable materials (those which when dry can be crumbled, pulverized or reduced to powder by hand pressure). In our view, resilient floor coverings are nonfriable and not fairly subject to such regulations. You should be aware that some jurisdictions have regulations which do not take into account the nonfriable nature of the removed material. For this reason, and also because the regulations in your state are always subject to change and sometimes varying interpretations, you should contact the governmental agencies within your jurisdiction to determine which, if any, regulations apply to the removal of resilient floor covering, including the use of RFI (Resilient Floor Covering Institute) Recommended Work Practices for the Removal of Resilient Floor Coverings.

Unless you are absolutely sure that a previously installed, in-place flooring material does not contain asbestos, you should always assume it does contain asbestos. A copy of the Recommended Work Practices is available at http://rfci.com/ or by calling 301 340-8580.

If you need additional information on Armstrong floors, contact 1 800 233-2283.
