James Flores, Laboratory Supervisor, Hayward Laboratory

Note: Limit of Quantification (LOQ) = 1%. 'Trace' denotes the presence of asbestos below the LOQ. 'ND' = 'None Detected'.

Technical results and reports are generated by Forensic Analytical at the request of and for the exclusive use of the person or entity (client) for whom such report was prepared. Results, reports or copies of same will not be released by Forensic Analytical to any third party without prior written consent from client. This report applies only to the sample(s) tested. Supporting laboratory documentation is available upon request. This report must not be reproduced except in full, unless approved by Forensic Analytical. The client is solely responsible for the use and interpretation of test results and reports requested from Forensic Analytical. This report must not be used by the client to claim product endorsement by NVLAP or any other agency of the U.S. Government. Forensic Analytical is not able to assess the degree of hazard resulting from materials analyzed. Forensic Analytical reserves the right to dispose of all samples after a period of thirty (30) days, according to all state and federal guidelines, unless otherwise specified. All samples were received in acceptable condition unless otherwise noted.

Re: Parkview Elementary School

To Whom It May Concern:

Please test the enclosed samples from the Parkview Elementary School Library for asbestos. We would like a 24-hour turnaround on the samples. Please fax the results to us as soon as soon as they are available. Our fax number is (530) 891-3190.

Site Sampled: Parkview Elementary School
Location: Library Building
Date Sampled: December 3, 2002
Number of Samples: Five (5)

Thank you for your prompt response to this request.

Sincerely,

Rob Peters
Maintenance/Operations Supervisor

**James Flores**, Laboratory Supervisor, Hayward Laboratory  

Note: Limit of Quantification ('LOQ') = 1%. 'Trace' denotes the presence of asbestos below the LOQ. 'ND' = 'None Detected'.

Analytical results and reports are generated by Forensic Analytical at the request of and for the exclusive use of the person or entity (client) named on such report. Results, reports or copies of same will not be released by Forensic Analytical to any third party without prior written request from client. This report applies only to the sample(s) tested. Supporting laboratory documentation is available upon request. This report must not be reproduced except in full, unless approved by Forensic Analytical. The client is solely responsible for the use and interpretation of test results and reports requested from Forensic Analytical. This report must not be used by the client to claim product endorsement by NVLAP or any other agency of the U.S. Government. Forensic Analytical is not able to assess the degree of hazard resulting from materials analyzed. Forensic Analytical reserves the right to dispose of all samples after a period of thirty (30) days, according to all state and federal guidelines, unless otherwise specified. All samples were received in acceptable condition unless otherwise noted.

Re:   Parkview Elementary School

To Whom It May Concern:

Please test the enclosed samples from the Parkview Elementary School Library for asbestos. We would like a 24-hour turnaround on the samples. Please fax the results to us as soon as soon as they are available. Our fax number is (530) 891-3190.

Site Sampled: Parkview Elementary School
Location: Library Building
Date Sampled: December 3, 2002
Number of Samples: Five (5)

Thank you for your prompt response to this request.

Sincerely,

[Signature]

Rob Peters
Maintenance/Operations Supervisor
