Cov Lus Piav Qhia Txog Tsev Kawm Ntawv thiab Nqe Lus Qhia Txog Lub Hom Phiaj Xyoo 2023-24

Academy for Change (AFC) is the community day school serving Chico Unified School District. Our students are referred to AFC for three reasons: expulsion, referral from the juvenile justice system as a result of formal or informal probation, or referral from the Student Attendance Review Board (SARB) for habitual truancy. Students referred for expulsion may be students who were expelled from a Chico Unified School District school, or students who moved to the area after being expelled from another district.

Academy for Change has three basic rules: Show Up, Be Cool, and Take Care of Business. "Show Up" refers to the

importance of daily attendance. Many AFC students have had truancy issues at their previous schools. AFC emphasizes the importance of daily attendance. Referrals to the office are kept to a minimum, indicating that students are following the "Be Cool" principle. Appropriate behavior inside and outside of the classroom is stressed through various aspects of the PBIS model, along with all core academic areas. "Take Care of Business" points out the need for students to complete academic work in a timely and sufficient manner to promote grade levels and progress towards a diploma.

AFC's mission statement is: "Reconnecting Students with their Educational Responsibility and Future." Our mission at AFC calls upon the educational strengths, unique backgrounds, and supportive nature of its staff to build an alternative education program that serves the needs of the community day school student population. The staff provides a program that opens its doors and works to reconnect young people to education. It is a program that values self-worth and encourages student achievement, both personally and academically.

The goal for all AFC students is to earn their way back to either a comprehensive high school, junior high school, or Fair View High School, the district's continuation high school. The responsibility of AFC is to assist students in their progress towards responsibility as it relates to academic achievement and personal development.

The Academy for Change campus is located on the Fair View High School campus. Teachers, support staff, and the school administrator supervise the students before and after school and during student breaks and lunch. Visitors are required to check in and register at the main office. Visitors are required to wear a name identification tag while they are visiting the campus. Signs are posted directing visitors to the main office and the campus supervisor assists in their direction.

AFC enjoys a healthy and safe environment. The CUSD school board has adopted cleaning standards for all schools in the district. School administration works with the custodial staff to see that these standards are followed and to ensure a clean and safe school. District maintenance staff keeps the school in good working order and necessary repairs are made in a timely manner. CUSD participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis to assist school districts with expenditures for major repairs or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. The AFC campus has received its fair share of this maintenance and repair and is kept in good working order. In addition, three new Pickle Ball courts with corresponding shade structures are being constructed during the '23-24 school year.

Txoj Phiaj Xwm Kev Nyab Xeeb Hauv Tsev Kawm Ntawv xyoo 2023-24

Our school has an emergency plan, and evacuation procedures are practiced as per State law. Staff and students are instructed in the Code Red/Yellow lockdown and evacuation procedures in case of a critical incident. Students are also instructed and drills are conducted with regard to the State required earthquake and fire procedures. The school safety plan is updated annually in accordance with State law. Our plan stresses prevention and that our students and staff be prepared. Our practice/training opportunities allow students and staff to increase their ability to deal with earthquakes, fire, conflict, anger, and other threats to safety. We have security checks on a regular basis to identify potential hazards and/or our vulnerability to crime and vandalism. Security cameras and increased gating have been installed throughout the interior and exterior of the campus to deter vandalism and help ensure campus safety. We also have a crisis response plan in place to deal with unforeseen emergencies. The plan was last updated, discussed with staff, and adopted by the CUSD Board of Trustees in October 2023.

Kev Tsim Kho Txuj Ci

AFC continues to be committed to staff training and curriculum improvement. Teachers are represented on CUSD task forces where they develop curriculum standards, benchmarks, and appropriate assessment methods. Every 6-8 weeks throughout the school year, we evaluate, improve, and implement curricular needs. AFC staff members also participate in many professional organizations and share responsibilities with other district secondary teachers on various district task forces and committees, specifically for the '23-24 school year we have representation on the MTSS district team. In addition, all staff members have opportunities to have PBIS fully implemented on campus and to become trained in trauma-informed best practices, the Nurtured Heart Approach, and tactical de-escalation techniques. Staff have also recognized the need for an intensive focus on student literacy and aspects thereof. We have partnered with the Northern California Writing Project for a full year of PD during the '18-19 school year in order to implement its resources yearly. CUSD has partnered with ABEO to provide equity-based instructional support throughout each of our secondary sites. The program has support further implementation of a site-wide focus on reading, writing, speaking and listening.

Members of AFC staff comprise a team throughout campus participating in Trauma Responsive Systems of Support (TRSS) as part of our MTSS implementation. As part of our said implementation (PBIS), the team reviews data as a means to focus current and future PD based on student and staff needs together. Weekly meetings are held to support staff and refine or implement any necessary changes based on all forms of student data (e.g. academic performance, attendance, discipline, and socio-emotional well-being). Other staff members participate in the School Based Intervention Team (SBIT) meeting weekly, supporting all aspects of student life on campus. Administration is part of the district's Equity Alliance (EA) PD cohort bringing site-based Equity Alliance teams comprised of all stakeholders to every campus. Site EA meets monthly to discuss and implement various activities throughout campus to support student learning of cultural diversity, understanding and building empathy among all student groups and engages community partners in campus wide activities during the school day.

The Alt Ed SBIT provides wellness workshops for staff member throughout the school year with an emphasis on self-care and overall wellness. Staff also participate in the Equine Connections and Forest Therapy programs to further expand skillsets related to self-regulation and trauma informed care for all.
